

ACL® Chlorinating compound BY MONSANTO  
**ACTIVE INGREDIENT:**  
 \*Sodium dichloro-s-triazinetrione ..... 96%  
**INERT INGREDIENTS** ..... 4%  
 \*Available chlorine 62%

**DANGER!**  
**KEEP OUT OF REACH OF CHILDREN**

See First Aid Statement and Additional Precautions on Back Panel.

EPA REG NO 524 325 EPA EST 524-LA-1

**granules**

**NET WT. 4 LBS. (1.8 Kg)**

TM - Trademark of Monsanto Company 2045 01/53

**granules**

- Fast dissolving.
- Totally soluble.
- Protects against bacteria and algae.
- Stabilized (Sun Shielded) for extended chlorine life.

Scatter directly over the surface of the swimming pool.

**DIRT**  
 It is a violation of Federal law to sell or distribute this product with its labeling scattered directly over the surface of a swimming pool at a rate of approximately 0.4 p.p.m.

In a clean pool with no chlorine residual, scatter approximately 3 oz. of Granules per 10,000 gallons of water, as follows:  
 1. Add 3 oz. of Granules.  
 2. Test for chlorine residual.  
 3. If chlorine residual is less than 1 p.p.m., add more Granules at a rate of 1 oz. per 10,000 gallons.  
 The day after your chlorine residual is 1 p.p.m., adjust pH according to label.  
 Adjust pH to the ideal range.

Add 3 oz. of Granules per 10,000 gallons of water. Reapplication will depend on pool temperature and other conditions.

**ADDITIONAL INFORMATION:**  
 pH—Maintaining pH in the range of 7.2 to 7.6 is best for full benefit of chlorine. Test and adjust at least once a week.  
**SUPERCHEMICALIZATION:**  
 Excessive use of this product per 10,000 gallons, especially during excessive heat, may cause the water to become dull looking, cause excessive eye irritation, and cause skin irritation. If algae appears, treat with a separate algaecide. Read and follow all other information on label.  
 Before swimming, allow the water to clear to 1 p.p.m.

Keep product dry in a cool, dry, well-ventilated container. Rinse eyes and skin with water before use. Avoid contact with eyes. If contact occurs, flush with water. If swallowed, do not induce vomiting. Call your doctor if you experience any symptoms. Avoid breathing dust from the product.

**DIRECTIONS FOR POOL USE**

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling.

Scatter directly over surface of pool. Each ounce of product will provide approximately 0.4 p.p.m. of available chlorine in 10,000 gallons of water.

**START UP**

In a clean pool with no visible algae, bring chlorine residual to 1 to 1.5 p.p.m. as follows:

1. Add 3 oz. of Granules for each 10,000 gallons of water.
2. Test for chlorine residual, using a suitable test kit.
3. If chlorine residual is below 1 p.p.m., continue to add the Granules at a rate of 1 oz. per 10,000 gallons until this level is reached.

The day after your chlorine residual reaches 1 to 1.5 p.p.m., use cyanuric acid according to label directions to stabilize your pool.

Adjust pH to the ideal range of 7.2 to 7.6

**REGULAR CARE**

Add 3 oz. of Granules for each 10,000 gallons every other day, or as needed to maintain your chlorine residual from 1 to 1.5 p.p.m. Frequency of application will depend upon number of people swimming, water temperature and other conditions.

**ADDITIONAL POOL CARE RECOMMENDATIONS**

**pH**—Maintaining pH in the ideal range of 7.2 to 7.6 is extremely important for full benefit of your chlorine and swimming comfort. Test for pH at least once a week with a suitable test kit. Adjust pH as necessary.

**SUPERCHLORINATION**—Keep your water sparkling clean by adding 11 oz. of this product per 10,000 gallons of water, at least once a week, especially during excessive heat, when bathing loads are high, when water becomes dull looking or hazy, when there is a "chlorine" like smell or excessive eye irritation, or after heavy rains.

If algae appears, treat your pool with sodium hypochlorite pool treatment solution. Read and carefully observe the precautionary statements and all other information appearing on labeling for all pool products.

Before swimming, allow the pool to stand until the chlorine residual drops to 3 p.p.m.

**STORAGE AND DISPOSAL**

Keep product dry in tightly closed container when not in use. Store in a cool dry well ventilated area away from heat or flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in a trash collection or dispose in approved landfill area, or bury in a safe place. **IN CASE OF CONTAMINATION OR DECOMPOSITION** do not reuse container. If possible isolate container in open air or well ventilated area. Flood with large volume of water, avoid breathing fumes. Dispose of contaminated material in an approved landfill or bury in a safe place.

**PRECAUTIONARY STATEMENTS**

Hazard To Humans and Domestic Animals

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and use clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

**FIRST AID (PRACTICAL TREATMENT)**

If swallowed: Feed large amounts of milk and/or water and induce vomiting. Call a physician immediately.

If on Skin: Flush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in Eyes: Flush with cold water for at least 15 minutes. Get immediate medical attention.

If inhaled: Remove person to fresh air. Get immediate medical attention.

**PHYSICAL AND CHEMICAL HAZARDS**

**STRONG OXIDIZING AGENT** Use only clean, dry utensils. Mix only with water. Do not add this product to any dispensing device containing remnants of any other product. Contamination with moisture, dirt, organic matter, or other chemicals (including pool chemicals) may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. **WILL BURN** with evolution of chlorine and equally toxic gases. Avoid any contact with flammings or burning material, such as a lighted cigarette.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

**TO DETERMINE POOL CAPACITY:**

Rectangular Pools: Multiply length x width x average depth x 7.5 = pool capacity (U.S. gallons)

Round Pools: Multiply radius (1/2 diameter) x radius x average depth x 2.16 = pool capacity (U.S. gallons)

In case of emergency involving this product, call collect, day or night, (314) 694-1000
