DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application.

AVOID CONTACT WITH FOLIAGE, GREEN STEMS, OR FRUIT OF CROPS, DESIRABLE PLANTS AND TREES, SINCE SEVERE INJURY OR DESTRUCTION MAY RESULT.

See "GENERAL INFORMATION" and "MIXING, ADDITIVES AND APPLICATION INSTRUCTIONS" sections of the label booklet for Honcho herbicide for essential product performance information.

RECOMMENDATIONS

This product may be applied through a wiper applicator in any noncrop site and only when specifically recommended in cropping systems, as stated in the label booklet for Honcho herbicide.

AVOID CONTACT WITH DESIRABLE VEGETATION.

Equipment must be designed, maintained, and operated to prevent the herbicide solution from contacting desirable vegetation.

Do not add surfactant to the herbicide solution.

In severe infestations, reduce equipment ground speed to ensure that adequate amounts of this product are wiped on the weeds. A second treatment in the opposite direction may be beneficial.

APPLICATION RATES - Use solutions consisting of 33 to 100 percent of this product. Limit solutions to 33 percent when using a standard wick-type applicator. Use the more concentrated solutions only with equipment that can handle a thick solution; such as the porous plastic-type applicators.

Read the "Limit of Warranty and Liability" in the label booklet for Roundup herbicide before using. These terms apply to this supplemental labeling and if these terms are not acceptable, return the product unopened at once.
