

LIMIT OF WARRANTY AND LIABILITY

This Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth in the Complete Directions for Use ("Directions") when used in accordance with those Directions under the conditions described therein. NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY IS MADE. This warranty is also subject to the conditions and limitations stated herein.

Buyer and all users shall promptly notify this Company of any claims whether based in contract, negligence, strict liability, other tort or otherwise.

Buyer and all users are responsible for all loss or damage from use or handling which results from conditions beyond the control of this Company, including, but not limited to, incompatibility with products other than those set forth in the Directions, application to or contact with desirable vegetation, unusual weather, weather conditions which are outside the range considered normal at the application site and for the time period when the product is applied, as well as weather conditions which are outside the application ranges set forth in the Directions, application in any manner not explicitly set forth in the Directions, moisture conditions outside the moisture range specified in the Directions, or the presence of products other than those set forth in the Directions in or on the soil or turf.

THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE LIMIT OF THE LIABILITY OF THIS COMPANY OR ANY OTHER SELLER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGE RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT (INCLUDING CLAIMS BASED IN CONTRACT, NEGLIGENCE, STRICT LIABILITY, OTHER TORT OR

OTHERWISE) SHALL BE THE PURCHASE PRICE PAID BY THE USER OR BUYER FOR THE QUANTITY OF THIS PRODUCT INVOLVED, OR AT THE ELECTION OF THIS COMPANY OR ANY OTHER SELLER, THE REPLACEMENT OF SUCH QUANTITY OR, IF NOT ACQUIRED BY PURCHASE, REPLACEMENT OF SUCH QUANTITY. IN NO EVENT SHALL THIS COMPANY OR ANY OTHER SELLER BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES.

The Buyer and all users are deemed to have accepted the terms of this LIMIT OF WARRANTY AND LIABILITY which may not be varied by any verbal or written agreement.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Keep out of reach of children.

WARNING!

CAUSES SKIN IRRITATION.
MAY CAUSE EYE IRRITATION.

Do not get in eyes, on skin or on clothing.
Wash thoroughly with soap and water after handling.
FIRST AID: IF IN EYES, immediately flush with plenty of water. Call a physician if irritation persists.

IF ON SKIN, immediately flush skin with plenty of water while removing contaminated clothing. Call a physician. Wash clothing before reuse.

In case of an emergency involving this product, Call Collect, day or night, (314) 694-4000

Environmental Hazards

Avoid direct application to any body of water. Do not contaminate water by cleaning of equipment or disposal of waste.

Physical or Chemical Hazards

Spray solutions of this product should be mixed, stored and applied only in stainless steel, aluminum, fiberglass, plastic and plastic-lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could explode, causing serious personal injury, if ignited by open flame, spark, welder's torch, lighted cigarette or other ignition source.

Storage and Disposal

Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

STORAGE

Keep container closed to prevent spills and contamination.

DISPOSAL

Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or burned on site in a safe place away from water supplies. All disposal should be in accordance with applicable Federal, state and local procedures.

Emptied container retains vapor and product residue. Observe all labeled safeguards until container is destroyed.

Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL INFORMATION

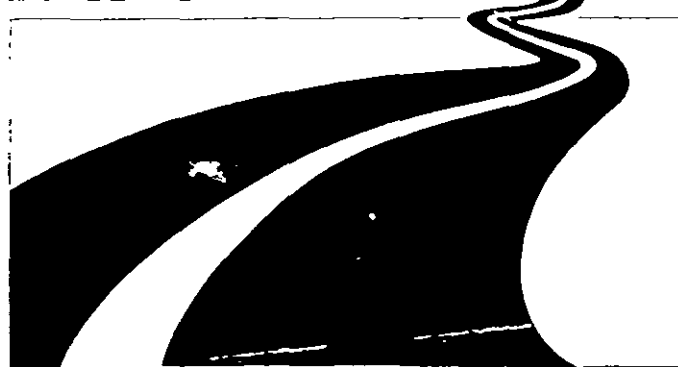

This product is a foliar-applied plant growth regulator that will suppress growth and seedhead development of listed turf species.

For best results, apply this product to actively growing plants at full greenup in the spring of the year but before seedheads begin to emerge.

This product is recommended for use on roadside rights-of-way or other industrial areas where coarse turfs are managed. Do not use on high-quality turfs or other areas where some turf color changes cannot be tolerated. Slight turf discoloration may occur but turf will regreen and regrow under most conditions as effects of this product wear off.

KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL SPRAY SOLUTION HAS DRIED.

Rainfall or irrigation occurring within 6 hours after application may reduce effectiveness. Heavy rainfall or irrigation within 2 hours after application may wash this product off the foliage and a repeat treatment may be required.

contain lead or zinc. (EPA REG. 40 CFR 158.101) may prevent
corrosion.**

Storage and Disposal

Do not store in hot water. Keep away from
open flames.

Any containers must be read and followed.

Do not reuse containers for other purposes.

In case of

FIRE: Soak with water.

GENERAL INFORMATION

This product is a foliar applied plant growth regu-
lator to hasten ripening and increase the level of
sucrose in sugarcane. It is effective in both low and
high tonnage sugarcane.

This product increases the sucrose content of ex-
isting surkers, while reducing the yield and number
of new surkers.

An average of 10% increase in sugar content has
been reported.

Do not apply to sugarcane until the plants are
at least 12 inches high.

Apply to sugarcane in the following manner:
Apply to sugarcane in the following manner:

Apply to sugarcane in the following manner:
Apply to sugarcane in the following manner:

Keep containers closed to prevent spill and
contamination.

When 0.1% weaker than application, this product
may produce a light yellowing of the leaves, and
a shortening of the upper internodes. Spindle death may occur.

Most of the sucrose produced is concentrated in the
top 10% of the treated cane stalk. In order to re-
ceive maximum sugar when topping is practiced
during harvest, top at the base of the fourth leaf.

Proper application, conducted in accordance
with this label, will not require special regard
to the degree of ripeness of the sugarcane from
the variety of sugarcane to be treated.

Do not use in a place other than an open field
small grain, forage, grass, or other crops. Do not
use in a place other than an open field.

DO NOT ADD ADDITIONAL CHEMICALS to either
formulation. Contains sufficient wetting agent for
the purposes described.

Mix only with clean water. Residue may be
expected if water contains oil or other
water from profit and other sources.

Notes

Apply to sugarcane in the following manner:
Apply to sugarcane in the following manner:

This product may not increase the sugar con-
tent of sugarcane under certain conditions of
ripening.

POLADO

PLANT GROWTH REGULATOR

BY Monsanto

Do not apply to sugarcane to be harvested for
purpose.

1

3

AERIAL APPLICATION

Apply the recommended rates of this product in
one to five gallons of water per acre with either
plane or helicopter aerial spray equipment.

AVOID DRIFT — Avoid direct application or drift to
any body of water. Do not apply when wind are
gusty or under other conditions which will allow
drift. Applications in wind conditions in excess of
5 MPH are not recommended. Do not apply when
wind speed is in excess of 15 MPH. Drift may cause
damage to any vegetation contacted to which treat-
ment is not intended.

In order to reduce the drift hazard to non-target
plants when treating sugarcane fields, avoid apply-
ing this product within 50 feet of any field not
to be treated.

Ornamental plants are less likely to drift, therefore do
not use nozzles or nozzle configurations which
spray as fine spray droplets. Do not angle
nozzles forward into the airstream and do not
increase spray volume by increasing nozzle pressure.

ENGINE UNIFORM APPLICATION — To avoid uneven
or overlapped application, use auto-
pilot marking device.

MIXING INSTRUCTIONS

- To achieve the best spray mix, proceed as follows:
1. Place a wetting basket over the filling port and
make all additions through it.
- Fill the sprayer or surge tank one half full with
water. Begin agitation.
- Add the recommended amount of this product.
Continue agitation.

- Complete filling the sprayer tank with the re-
quired amount of water. Maintain agitation until
contents are sprayed.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product
in any manner inconsistent with its labeling.

When applied as directed under the conditions de-
scribed, this product will hasten ripening and ex-
tend the period of high sucrose levels in sugarcane.
Specify the following use instructions, the recommended
rates and time of application for the state in which
applications are to be made.

NOTE Use the higher rate within the recommended
range when treating sugarcane under adverse condi-
tion conditions when less than average variety rate
to be treated.

FLORIDA Apply 0.3 to 0.7 pounds of this product
per acre 3 to 6 weeks before harvest of LAST RA-
TOON CANE ONLY.

HAWAII — Apply 0.5 to 1.2 pounds of this product
per acre 4 to 10 weeks before harvest.

LOUISIANA Apply 0.3 to 0.5 pounds of this prod-
uct per acre 3 to 6 weeks before harvest of LAST RA-
TOON CANE ONLY.

TEXAS Apply 0.3 to 0.7 pounds of this product
per acre 3 to 6 weeks before harvest of LAST RA-
TOON CANE ONLY.

PURPOSE OR MERCHANTABILITY IS MADE.** This
warranty is subject to the conditions and limita-
tions stated herein.

Buyer and all users shall promptly notify this com-
pany if any claims, whether based in contract, negli-
gence, strict liability, other tort or otherwise.

Buyer and all users are responsible for all loss or
damage from use or handling which results from
use of this product. The liability of this company
including but not limited to incompatibility with
products other than those set forth in the Directions,
unusual weather or weather conditions which are
outside the range considered normal at the applica-
tion site and for the time period when the product is
applied within the normal range being determined on
the basis of the average range for the prior 40
years computed from the best available information
and all weather perils including but not limited to
hurricanes, tornadoes and floods as well as weather
considerations set forth in the Directions applica-
tion in any manner not explicitly set forth in the
Directions, moisture conditions outside the moisture
range specified in the Directions, or the presence
of products other than those set forth in the Direc-
tions in or on the soil or crop.

BE THE PURCHASE PRICE PAID BY
THE USER OR BUYER FOR THE QUANTITY OF THIS
PRODUCT INVOLVED OR AT THE ELECTION OF
THIS COMPANY OR ANY OTHER SELLER THE RE-
PLACEMENT OF SUCH QUANTITY OR IF NOT AC-
QUIRED BY PURCHASE, REPLACEMENT OF SUCH
QUANTITY. IN NO EVENT SHALL THIS COMPANY
OR ANY OTHER SELLER BE LIABLE FOR ANY INCIDEN-
TAL OR CONSEQUENTIAL DAMAGES.**

The Buyer and all users are deemed to have accept-
ed the terms of this **LIMIT OF WARRANTY AND LI-
ABILITY** which may not be varied by any verbal or
written agreement.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

For suppression of growth and seedheads of tall fescue, apply 4 ounces of this product in 10 to 40 gallons per acre of spray solution. A 1 pound (16 ounces) package of this product will treat four acres. Applications can be made from greenup until seedhead emergence. Treatments made after seedhead emergence may cause turf injury.

TANK MIXTURES

Manage plus Telar™

For added suppression of tall fescue growth and seed heads and for control of certain weeds, tank mix up to 1/2 ounce per acre of Telar. Consult the Telar label for weeds controlled at this rate and the proper stage of application. Do not combine both Telar and Oust™ in a tank mixture with this product.

Manage plus Oust™

For added suppression of tall fescue and smooth brome growth and seedheads and for control of certain weeds, tank mix up to 1/4 ounce per acre of Oust. Consult the Oust label for weeds controlled at this rate and the proper stage of application. Do not combine both Oust and Telar in a tank mixture with this product.

Tank Mixtures plus 2,4-D Amine

For additional weed control benefits, up to 1 quart per acre of 2,4-D amine may be added to the above tank mixtures. Consult the label for 2,4-D amine for weeds controlled.

Always read and follow label directions for all products.

™ Telar and Oust are trademarks of E. I. duPont de Nemours and Company.

Read the entire label before using this product.

Use only according to label instructions.

Read "LIMIT OF WARRANTY AND LIABILITY"
before buying or using. If terms are not accept-
able, return at once unopened.

LIMIT OF WARRANTY AND LIABILITY

This Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth in the Complete Directions for Use ("Directions") when used in accordance with those Directions under the conditions described therein. NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY IS MADE. This warranty is also subject to the conditions and limitations stated herein.

Buyer and all users shall promptly notify this Company of any claims whether based in contract, negligence, strict liability, other tort or otherwise.

Buyer and all users are responsible for all loss or damage from use or handling which results from conditions beyond the control of this Company, including, but not limited to, incompatibility with products other than those set forth in the Directions, application to or contact with desirable vegetation, unusual weather, weather conditions which are outside the range considered normal at the application site and for the time period when the product is applied, as well as weather conditions which are outside the application ranges set forth in the Directions, application in any manner not explicitly set forth in the Directions, moisture conditions outside the moisture range specified in the Directions, or the presence of products other than those set forth in the Directions in or on the soil or turf.

THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE LIMIT OF THE LIABILITY OF THIS COMPANY OR ANY OTHER SELLER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGE RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT (INCLUDING CLAIMS BASED IN CONTRACT, NEGLIGENCE, STRICT LIABILITY, OTHER TORT OR

OTHERWISE) SHALL BE THE PURCHASE PRICE PAID BY THE USER OR BUYER FOR THE QUANTITY OF THIS PRODUCT INVOLVED, OR, AT THE ELECTION OF THIS COMPANY OR ANY OTHER SELLER, THE REPLACEMENT OF SUCH QUANTITY OR, IF NOT ACQUIRED BY PURCHASE, REPLACEMENT OF SUCH QUANTITY IN NO EVENT SHALL THIS COMPANY OR ANY OTHER SELLER BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES.

The Buyer and all users are deemed to have accepted the terms of this LIMIT OF WARRANTY AND LIABILITY which may not be varied by any verbal or written agreement.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Keep out of reach of children.

WARNING!

CAUSES SKIN IRRITATION.

MAY CAUSE EYE IRRITATION

Do not get in eyes, on skin or on clothing
Wash thoroughly with soap and water after handling

FIRST AID: IF IN EYES, immediately flush with plenty of water. Call a physician if irritation persists.

IF ON SKIN, immediately flush skin with plenty of water while removing contaminated clothing. Call a physician. Wash clothing before reuse.

In case of an emergency involving this product.
Call Collect, day or night, (314) 694 4000

Environmental Hazards

Avoid direct application to any body of water. Do not contaminate water by cleaning of equipment or disposal of waste.

Physical or Chemical Hazards

Spray solutions of this product should be mixed, stored and applied only in stainless steel, aluminum, fiberglass, plastic and plastic-lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could explode, causing serious personal injury, if ignited by open flame, spark, welder's torch, lighted cigarette or other ignition source.

Storage and Disposal

Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

STORAGE:

Keep container closed to prevent spills and contamination.

DISPOSAL:

Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or buried on site in a safe place away from water supplies. All disposal should be in accordance with applicable Federal, state and local procedures.

Empty container retains vapor and product residue. Observe all labeled safeguards until container is destroyed.

Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL INFORMATION

This product is a foliar-applied plant growth regulator that will suppress growth and seedhead development of listed turf species.

For best results, apply this product to actively growing plants at full greenup in the spring of the year but before seedheads begin to emerge.

This product is recommended for use on roadside rights-of-way or other industrial areas where coarse turfs are managed. Do not use on high-quality turfs or other areas where some turf color changes cannot be tolerated. Slight turf discoloration may occur but turf will regreen and regrow under most conditions as effects of this product wear off.

KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL SPRAY SOLUTION HAS DRIED

Rainfall or irrigation occurring within 6 hours after application may reduce effectiveness. Heavy rainfall or irrigation within 2 hours after application may wash this product off the foliage and a repeat treatment may be required.

WARNING!

CAUSES SKIN IRRITATION
MAY CAUSE EYE IRRITATION

Do not get in eyes, on skin or on clothing.
Wash thoroughly with soap and water after handling.
FIRST AID: If in EYES, immediately flush with plenty of water. Call a physician if irritation persists.

If ON SKIN, immediately flush skin with plenty of water while removing contaminated clothing. Call a physician if skin irritation persists.

In case of an emergency involving this product, call CorTech day or night, (314) 694-4000.

Environmental Hazards

Avoid direct application to any body of water. Do not contribute water by cleaning of equipment or disposal of waste.

Physical or Chemical Hazards

Spray solutions of this product should be mixed, stored and applied only in stainless steel, aluminum, fiberglass, plastic and plastic lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANEZED STEEL OR WARMED STEEL (HEAT TREATED STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could explode causing serious personal injury if ignited by open flame, static, sparks, hot liquid, cigarette or other ignition source.

Storage and Disposal

Do not contaminate water, foodstuffs, feed or feed by storage or disposal.

STORAGE

Keep container closed to prevent spills and contamination.

DISPOSAL

Wastes resulting from the use of this product that can not be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or burned on site in a safe place away from water supplies. An disposal should be in accordance with applicable Federal, state and local procedures.

Empty containers, return labels and product residue. Do not reuse all labeled containers unless container is destroyed. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

LIMIT OF WARRANTY AND LIABILITY

This Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth in the Complete Directions for Use (Directions) when used in accordance with those Directions under the conditions described therein. **NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY IS MADE.** This warranty is also subject to the conditions and limitations stated herein.

Buyer and all users shall promptly notify this Company of any claims, whether based on contract, negligence, strict liability, other tort or otherwise.

Buyer and all users are responsible for all loss or damage from use or handling when it results from conditions beyond the control of this Company, including but not limited to incompatibility with products other than those set forth in the Directions, application in a contact with desirable vegetation, unusual weather, weather conditions, which are outside the range, consistent use of the ap-

plication site and for the time period when the product is applied, as well as weather conditions which are outside the application ranges set forth in the Directions. Application in any manner not expressly set forth in the Directions, moisture conditions outside the moisture range specified in the Directions, or the presence of products other than those set forth in the Directions, or on the soil or turf.

THE EXCLUSIVE REMEDY OF THE BUYER OR USER AND THE LIMIT OF THE LIABILITY OF THIS COMPANY ON ANY OTHER SELLER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT (INCLUDING CLAIMS BASED IN CONTRACT, NEGLIGENCE, STRICT LIABILITY, OTHER TORT OR OTHERWISE) SHALL BE THE PURCHASE PRICE PAID BY THE USER OR BUYER FOR THE QUANTITY OF THIS PRODUCT RECEIVED OR AT THE DISCRETION OF THIS COMPANY OR ANY OTHER SELLER, THE REPLACEMENT OF SUCH QUANTITY OR, IF NOT ACQUIRED BY PURCHASE, REPLACEMENT OF SUCH QUANTITY IN REPLY. THIS COMPANY OR ANY OTHER SELLER SHALL BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES.

The Buyer and all users are deemed to have accepted the terms of this LIMIT OF WARRANTY AND LIABILITY which may not be varied by any verbal or written agreement.

In case of an emergency involving this product, call CorTech day or night, (314) 694-4000.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

For suppression of growth and seedheads of tall fescue, apply 3 to 5 ounces per acre of this product in 10 to 40 gallons per acre of spray solution. Use the higher recommended rate at full greenup or when using higher spray volumes. Reduce the rate as the plant approaches the seedhead emergence stage or when using the lower spray volumes. Treatments made after seedhead emergence may cause turf injury.

TANK MIXTURES

Manage plus Telar™

For added suppression of tall fescue growth and seed heads and for control of certain weeds, tank mix up to 1/2 ounce per acre of Telar. Consult the Telar label for weeds controlled at this rate and the proper stage of application. Do not combine both Telar and Oust™ in a tank mixture with this product.

Manage plus Oust™

For added suppression of tall fescue and smooth brome growth and seedheads and for control of certain weeds, tank mix up to 1/4 ounce per acre of Oust. Consult the Oust label for weeds controlled at this rate and the proper stage of application. Do not combine both Oust and Telar in a tank mixture with this product.

Tank Mixtures plus 2,4-D Amine

For additional weed control benefits, up to 1 quart per acre of 2,4-D amine may be added to the above tank mixtures. Consult the label for 2,4-D amine for weeds controlled.

Always read and follow label directions for all products.

For more information, contact your local Monsanto representative or write to Monsanto, P.O. Box 117, St. Louis, Missouri 63167.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

For suppression of growth and seedheads of tall fescue apply 4 ounces of this product in 10 to 40 gallons per acre of spray solution. A 1 pound (16 ounces) package of this product will treat four acres. Applications can be made from greenup until seedhead emergence. Treatments made after seedhead emergence may cause turf injury.

TANK MIXTURES

Manage plus Telar™

For added suppression of tall fescue growth and seed heads and for control of certain weeds, tank mix up to 1/2 ounce per acre of Telar. Consult the Telar label for weeds controlled at this rate and the proper stage of application. Do not combine both Telar and Oust™ in a tank mixture with this product.

Manage plus Oust™

For added suppression of tall fescue and smooth brome growth and seedheads and for control of certain weeds, tank mix up to 1/4 ounce per acre of Oust. Do not combine both Oust and Telar in a tank mixture with this product.

Tank Mixtures plus 2,4-D Amine

For additional weed control benefits, up to 1 quart per acre of 2,4-D amine may be added to the above tank mixtures. Consult the label for 2,4-D amine for weeds controlled.

Always read and follow label directions for all products.

Environmental Hazards

① Avoid direct application to any body of water. Do not contaminate water by cleaning of equipment or disposal of waste.

Physical or Chemical Hazards

Spray solutions of this product should be mixed, stored and applied only in stainless steel, aluminum, fiberglass, plastic and plastic-lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could explode, causing serious personal injury if ignited by open flame, spark, welder's torch, lighted cigarette or other ignition source.

Storage and Disposal

Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

STORAGE

Keep container closed to prevent spills and contamination.

DISPOSAL

Wastes resulting from the use of this product that can not be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or burned on site in a safe place away from water supplies. All disposal should be in accordance with applicable Federal, state and local procedures.

Emptied container retains vapor and product residue. Observe all labeled safeguards until container is destroyed. Do not reuse container. Triple rinse container. Then puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL INFORMATION

This product is a foliar-applied plant growth regulator that will suppress growth and seedhead development of listed turf species.

For best results, apply this product to actively growing plants at full greenup in the spring of the year but before seedheads begin to emerge.

This product is recommended for use on roadside rights-of-way or other industrial areas where coarse turfs are managed. Do not use on high-quality turfs or other areas where some turf color changes cannot be tolerated. Slight turf discoloration may occur but turf will regreen and regrow under moist conditions as effects of this product wear off.

KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL SPRAY SOLUTION HAS DRIED.

Rainfall or irrigation occurring within 6 hours after application may reduce effectiveness. Heavy rainfall or irrigation within 2 hours after application may wash this product off the foliage and a repeat treatment may be required.

Environmental Hazards

Do not apply directly to water or wetland (swamps, bogs, marshes or potholes). Do not contaminate water by cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards

Spray solutions of this product should be mixed, stored and applied only in stainless steel, aluminum, fiberglass, plastic and plastic-lined steel containers

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could explode, causing serious personal injury, if ignited by open flame, spark, welder's torch, lighted cigarette or other ignition source.

Storage and Disposal

Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

STORAGE:

Keep container closed to prevent spills and contamination.

DISPOSAL:

Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or buried on site in a safe place away from water supplies. All disposal should be in accordance with applicable Federal, state and local procedures.

Emptied container retains vapor and product residue. Observe all labeled safeguards until container is destroyed.

Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

LIMIT OF WARRANTY AND LIABILITY

This Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth in the Complete Directions for Use label booklet ("Directions") when used in accordance with the Directions under the conditions described therein. NO OTHER EXPRESS WARRANTY OR IMPLIED WARRANTY OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY IS MADE. This warranty is also subject to the conditions and limitations stated herein.

Buyer and all users shall promptly notify this Company of any claims whether based in contract, negligence, strict liability, other tort or otherwise.

Buyer and all users are responsible for all loss or damage from use or handling which results from conditions beyond the control of this Company, including, but not

limited to, incompatibility with products other than those set forth in the Directions, application to or contact with desirable vegetation, unusual weather, weather conditions which are outside the range considered normal at the application site and for the time period when the product is applied, as well as weather conditions which are outside the application ranges set forth in the Directions, application in any manner not explicitly set forth in the Directions, moisture conditions outside the moisture range specified in the Directions, or the presence of products other than those set forth in the Directions in or on the soil or turf.

THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE LIMIT OF THE LIABILITY OF THIS COMPANY OR ANY OTHER SELLER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGE RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT (INCLUDING CLAIMS BASED IN CONTRACT, NEGLIGENCE, STRICT LIABILITY, OTHER TORT OR OTHERWISE) SHALL BE THE PURCHASE PRICE PAID BY THE USER OR BUYER FOR THE QUANTITY OF THIS PRODUCT INVOLVED, OR, AT THE ELECTION OF THIS COMPANY OR ANY OTHER SELLER, THE REPLACEMENT OF SUCH QUANTITY OR, IF NOT ACQUIRED BY PURCHASE, REPLACEMENT OF SUCH QUANTITY. IN NO EVENT SHALL THIS COMPANY OR ANY OTHER SELLER BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES.

Buyer and all users are deemed to have accepted the terms of this LIMIT OF WARRANTY AND LIABILITY which may not be varied by any verbal or written agreement.

In case of an emergency involving this product,
Call Collect, day or night, (314) 694-4000.

BEST AVAILABLE COPY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

For suppression of growth and seedheads of tall fescue, apply 4 ounces of this product in 10 to 40 gallons per acre of spray solution. A 1 pound (16 ounces) package of this product will treat four acres. Applications can be made from green up until seedhead emergence. Treatments made after seedhead emergence may reduce turf density.

TANK MIXTURES

Manage plus Telar™

For added suppression of tall fescue growth and seed heads and for control of certain weeds, tank mix up to 1/2 ounce per acre of Telar. Consult the Telar label for weeds controlled at this rate and the proper stage of application. Do not combine both Telar and Oust™ in a tank mixture with this product.

Manage plus Oust™

For added suppression of tall fescue and smooth brome growth and seedheads and for control of certain weeds, tank mix up to 1/4 ounce per acre of Oust. Do not combine both Oust and Telar in a tank mixture with this product.

Tank Mixtures plus 2,4-D Amine

For additional weed control benefits, up to 1 quart per acre of 2,4-D amine may be added to the above tank mixtures. Consult the label for 2,4-D amine for weeds controlled.

Always read and follow label directions for all products.

™Telar and Oust are trademarks of E. I. du Pont de Nemours and Company.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Keep out of reach of children.

WARNING!

**CAUSES SKIN IRRITATION.
MAY CAUSE EYE IRRITATION.**

Do not get in eyes, on skin or on clothing.
Wash thoroughly with soap and water after handling.

FIRST AID IF IN EYES: Immediately flush with plenty of water. Call a physician if irritation persists.

IF ON SKIN: Immediately flush with plenty of water while removing contaminated clothing. Call a physician. Wash clothing before reuse.

In case of an emergency involving this product,
Call Collect (3) or night (313) 694-1000.

Environmental Hazards

Do not apply directly to water or wetland waters. Do not transfer sprays to soil. Do not contaminate water by cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards

Spray solutions of this product should be mixed, stored and applied only in stainless steel, aluminum, fiberglass, plastic and plastic lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could explode, causing serious personal injury, if ignited by open flame, spark, wild fire, hot, heated cigarette, or other heat and source.

Storage and Disposal

Do not contaminate water, feedstuffs, seed or feed by storage or disposal.

STORAGE

Keep containers closed to prevent spills and contamination.

DISPOSAL

Wastes resulting from the use of this product that cannot be used or otherwise reprocessed should be disposed of in a facility approved for pesticide disposal (unless otherwise specified) and kept away from water supplies. Attention should be given to any applicable Federal, State and local regulations.

Empty container retains vapors of product in sun. Observe any labeled precautions until container is destroyed.

Completely empty bag or application equipment. Then dispose of empty bag in an authorized landfill or by incineration or as allowed by state and local authorities. Do not burn. If burned, stay out of smoke.

GENERAL INFORMATION

This product is a fungicide applied to turf with the active ingredient that will suppress growth and weaken the development of leaf and turf spores.

For best results, apply this product to a lawn with plants at full green up in the spring of the year but before seedheads begin to emerge.

This product is not meant for use in or near playground or other industrial areas where coarse turfs are managed. Do not use on high quality turfs or other areas where some turf color changes cannot be tolerated. Slight turf discoloration may occur but turf will regrow and regrow under most conditions as effects of the product wear off.

KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL SPRAY SOLUTION HAS DRIED.

Rainfall or irrigation occurring within 6 hours after application may reduce effectiveness. Heavy rainfall or irrigation within 2 hours after application may wash the product off the foliage and a re-treat treatment may be required.

Do not apply directly to water or wetland (swamps, bogs, marshes or potholes). Do not contaminate water by cleaning of equipment or disposal of waste.

ACCEPTED
SEP 11 1987
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 524-332

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

For suppression of growth and seedheads of tall fescue apply 3 to 5 ounces per acre of this product in 10 to 40 gallons per acre of spray solution. Use the higher recommended rate at full greenup or when using higher spray volumes. Reduce the rate as the plant approaches the seedhead emergence stage or when using the lower spray volumes. Treatments made after seedhead emergence may cause turf injury.

TANK MIXTURES

Manage plus Telar™

For added suppression of tall fescue growth and seedheads and for control of certain weeds, tank mix up to 1/2 ounce per acre of Telar. Consult the Telar label for weeds controlled at this rate and the proper stage of application. Do not combine both Telar and Oust™ in a tank mixture with this product.

Manage plus Oust™

For added suppression of tall fescue and smooth brome growth and seedheads and for control of certain weeds, tank mix up to 1/4 ounce per acre of Oust. Consult the Oust label for weeds controlled at this rate and the proper stage of application. Do not combine both Oust and Telar in a tank mixture with this product.

Tank Mixtures plus 2,4-D Amine

For additional weed control benefits, up to 1 quart per acre of 2,4-D amine may be added to the above tank mixtures. Consult the label for 2,4-D amine for weeds controlled.

Always read and follow label directions for all products.

Manage and Oust are trademarks of Monsanto Company and Telar is a trademark of Telar Chemical Company.

Environmental Hazards

⚠ Avoid direct application to any body of water. Do not contaminate water by cleaning of equipment or disposal of waste.

Physical or Chemical Hazards

Spray solutions of this product should be mixed, stored and applied only in stainless steel, aluminum, fiberglass plastic and plastic-lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could explode, causing serious personal injury, if ignited by open flame, spark, welder torch, lighted cigarette or other ignition source.

Storage and Disposal

Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

STORAGE

Keep container closed to prevent spills and contamination.

DISPOSAL

Wastes resulting from the use of this product that can not be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or buried on site in a safe place away from water supplies. All disposal should be in accordance with applicable Federal, state and local procedures.

Empired container retains vapor and product residue. Observe all labeled safeguards until container is destroyed.

Do not reuse container. Triple rinse container, then puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL INFORMATION

This product is a foliar-applied plant growth regulator that will suppress growth and seed head development of listed turf species.

For best results, apply this product to actively growing plants at full greenup in the spring of the year. It is before seedheads begin to emerge.

This product is recommended for use on roadside rights-of-way or other industrial areas where coarse turfs are managed. Do not use on high-quality turfs or other areas where some turf color changes cannot be tolerated. Light turf discoloration may occur but turf will regreen and regrow under most conditions as effects of this product wear off.

KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL SPRAY SOLUTION HAS DRIED.

Rainfall or irrigation occurring within 6 hours after application may reduce effectiveness. Heavy rainfall or irrigation within 2 hours after application may wash this product off the foliage and a repeat treatment may be required.

① Do not apply this product through any type of irrigation system.

POLADOL

PLANT GROWTH REGULATOR

BY **Monsanto**

FOR USE ONLY ON SUGARCANE

Water soluble powder for foliar application to hasten ripening and extend the period of high sucrose level

WARNING: ...

... ..

... ..

NE

Wash the container thoroughly with water before reuse. Do not use for food or drink. Do not use for agricultural purposes. Do not use for storage of water. Wash thoroughly before use.

Physical and Chemical Hazards

Spray solutions of this product should be mixed, stored and applied in metal, coated aluminum, fiberglass, plastic or plastic-lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNCOATED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers and tanks to produce hydrogen gas, which may form a highly combustible gas mixture. This gas mixture could then, in an explosion, cause serious personal injury or property damage caused by open flame, sparks, welders, lighted cigarettes or other ignition source.

This highly volatile mixture may be ignited just after each day of spraying from vapors of this product or from an ignition spraying or from sparks. **PROLONGED EXPOSURE OF THIS PRODUCT TO UNCOATED STEEL SURFACES MAY RESULT IN CORROSION AND EROSION (ESPECIALLY OF THE FERTILIZING GLAZING) MOST SUSCEPTIBLE.** The main hazard from use of this product is that it should never be used in a confined area which may prevent exit.

Storage and Disposal

Use containers which have been specifically designed for use.

Avoid contact with food, feed and livestock.

Do not use containers for reuse when empty.

In case of

FIRE: Seal with water.

A large spill may be cleaned up with water and detergent.

Do not breathe dust or spray. Avoid contact with eyes. Wash thoroughly with soap and water if contact occurs.

Use of this product in the field with the label may result in injury to persons, animals or crops other than intended for use.

Keep containers closed to prevent spills and contamination.

With a 2 to 3 week after application, the product may produce a slight yellowing of green plants, blowing and drying of the leaves, and a shortening of upper internodes. Spindle death may occur.

Most of the stored insecticide is concentrated in the top nodes of the treated cane stalk. In order to harvest maximum sugar when topping is practised, leaving harvest top at the time of the harvest.

Prior to application, consult a local government authority or local Monsanto representative regarding the degree of insect resistance indicated from the variety of sugarcane to be treated.

Do not operate sprayer when wind is strong, clouds small, plants are dry, plants are in seed only, leaves are in anthesis, or when fruit are visible. Wind speed 10.

DO NOT ADD ADDITIONAL INERTANT to a pump formulation container sufficient with the label for the purposes described.

Mix only with clean water. Extra water may be evaporated if water enters tank. Do not let tank water become less than 100 mm.

NOTE

Application to sugarcane should be done only at flowering stage.

This product may be used as a pre-planting soil drench on sugarcane under conditions specified on the label.

Do not use on sugarcane under conditions specified on the label.

AERIAL APPLICATION

Apply to sugarcane in the field with the label. Do not use on sugarcane in the field with the label. Do not use on sugarcane in the field with the label.

AVOID DRIFT — Avoid direct application or drift to any body of water. Do not apply when winds are gusty or under other conditions which will allow drift. Applications in wind conditions in excess of 5 MPH are not recommended. Do not apply when wind speed is in excess of 15 MPH. Drift may cause damage to any vegetable or other plant which treatment is not intended.

In order to reduce the drift hazard from direct plants when treating sugarcane fields, do not apply this product within 50 feet of any field not growing sugarcane.

Use nozzles which are less likely to drift than most. Use low pressure or nozzle configurations which do not spray at low spray droplets. Do not apply directly toward the audience and do not use direct spray to form by misting or fogging. **ENSURE PROPER APPLICATION** — To avoid drift, use only when the sprayer application is in a closed position.

MIXING INSTRUCTIONS

1. Mix water in the sprayer or tank to 1/2 full.
2. Fill a 5-gallon bucket over the 1/2 full sprayer with water and mix thoroughly.
3. Fill the sprayer or tank one-half full with water from bucket 2.
4. Add the recommended amount of this product. Continue mixing.

Do not use on sugarcane under conditions specified on the label. Do not use on sugarcane in the field with the label. Do not use on sugarcane in the field with the label.

NOTE: Use the label rate with the recommended nozzle when treating sugarcane. Do not use the label rate when less than the recommended nozzle is to be treated.

FLORIDA — Apply 0.3 to 0.7 g per liter of the product per acre 3 to 6 weeks before harvest of EAST PALM BEACH COUNTY.

HAWAII — Apply 0.5 to 1.2 g per liter of the product per acre 4 to 10 weeks before harvest.

LOUISIANA — Apply 0.3 to 0.7 g per liter of the product per acre 3 to 6 weeks before harvest of EAST PALM BEACH COUNTY.

TEXAS — Apply 0.3 to 0.7 g per liter of the product per acre 3 to 6 weeks before harvest of EAST PALM BEACH COUNTY.
