

# SUPPLEMENTAL LABELING

READ AND FOLLOW THE ENTIRE LABEL FOR RODEO® HERBICIDE BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING.

"Label" as used in this supplemental labeling refers to the label booklet for Rodeo herbicide and this supplement.

## RODEO

EMERGED AQUATIC WEED AND BRUSH HERBICIDE  
BY MONSANTO

EPA Reg. No. 524-343

**BASAL AND SELECTIVE STEM APPLICATIONS OF  
RODEO HERBICIDE PLUS QuikSorb™ PENETRANT  
FOR CONTROL OR PARTIAL CONTROL OF  
BRAZILIAN PEPPERTREE (*Schinus terebinthifolius*)**

**Keep out of reach of children.**

**CAUTION!**

In case of emergency involving this product, call Collect, day or night, 314-694-4000.

Rodeo® is a registered trademark of Monsanto Company.

QuikSorb™ is a trademark of Monsanto Company.

### Directions for Use

It is a violation of Federal law to use this product in any manner inconsistent with the labeling.

This label must be in the possession of the user at the time of the herbicide application.

When applied as directed, this product will control or partially control Brazilian peppertree in areas such as dry drainage ditches and canals, wildlife habitat restoration and management areas, roadsides, railroads, fence rows, and similar non-crop areas.

The recommended application technique is directed spot treatment of Brazilian peppertree using hand-held equipment only. Apply this product using backpack, hand-held, handgun or similar equipment. Use flat fan, cone, or similar nozzles that will provide effective spray coverage of target vegetation. Do not apply to Brazilian peppertree growing in water. The use of aerial, boom-type or other broadcast spray equipment is not recommended. These applications are more effective on small brush less than 15 feet in height or 3-inch stem diameter.

292

## BASAL AND SELECTIVE STEM APPLICATION

Apply a solution consisting of 25% v/v of this product and 75% v/v of QuikSorb penetrant. Completely cover the lower 18-24 inches of the brush stems or trunks. For larger stems over 3 inches in diameter, treat up to 48 inches or higher from the ground level. For better control of large trees, apply spray solution directly to upper foliage of plant canopy. Spray coverage should be uniform, covering at least 40 to 60% of the upper foliage and stems. Application is best when made to young, actively growing stems, branches and foliage. Spray-to-wet but not to the point of run-off.

---

Read and carefully observe the label claims, cautionary statements, and all information on the labels of all products used in this tank mixture.

Read the "LIMIT OF WARRANTY AND LIABILITY" in the label booklet for Rodeo before using this product. Those terms apply to this supplemental labeling and, if those terms are not acceptable, return the product unopened at once.
