

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 524-359	DATE OF ISSUANCE 9 JUN 1987
	TERM OF ISSUANCE	
NAME OF PESTICIDE PRODUCT MAWS 59 ACID WASH SANITIZER		

NOTICE OF PESTICIDE:  REGISTRATION  
 REREGISTRATION  
 (Under the Federal Insecticide, Fungicide,  
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

MONSANTO COMPANY  
 800 North Lindbergh Blvd.  
 St. Louis, MO 63167

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

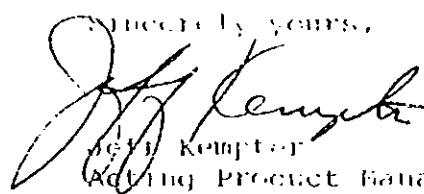

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration notice is being issued in accordance with Section 3(c)(2) of the FIFRA Act, subject to the following conditions.

(1) It is understood that you will submit and/or cite all data received for registration or re-registration of your product under Section 3(c)(2) of the FIFRA Act. The Act requires all registrants of similar products to submit such data.

(2) You will submit two copies of your finished printed labels complying with the requirements or revisions specific in the attachment to this registration notice. These labels must be submitted to the Agency before the product is released for shipment as required by PE notice 87-2, of June 18, 1982.

A stamped copy of the draft label is enclosed for your records. Your release of the product for shipment constitutes acceptance of these conditions. If the conditions are not complied with, the registration will be subject to cancellation in accordance with Section 6(c) of the FIFRA Act.

Sincerely yours,  
  
 Jeff Kempton  
 Acting Product Manager #32  
 Registrants Branch  
 Registration Division (TS-767/C)

ATTACHMENT TO EPA REGISTRATION NOTICE

EPA Registration No. 524-359 Date Issued 9 JUN 1987

Company Name MONSANTO COMPANY

Product Name MAWS 59 ACID WASH SANITIZER

The following requirements or revisions apply to the label which was accepted with this registration notice:

1. The registration number which has been assigned to this product must appear on the label as EPA Reg. No. 524-359. This registration is being issued with the understanding that the derivative of cyanuric acid which is contained in this product is under scrutiny for potential adverse effects to human. There may be some regulatory actions directed against all registered products containing this chemical as an active ingredient at some time in the future.
2. Two copies of the finished printed labels, as defined in the A-79 enclosure, must be submitted to the Agency before the product is released for shipment to comply with PR Notice 82-2 of June 18, 1982.
3. The finished printed labels must comply with the general labeling requirements of Section 162.10 of Title 40 of the Code of Federal Regulations. If the label does not satisfy these requirements it will be rejected.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

D A N G E R !

HIGHLY CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. CAUSES BURNS TO SKIN. IRRITATING TO NOSE AND THROAT. MAY BE FATAL IF SWALLOWED. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES.

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

Environmental Hazard

This product is toxic to fish Do not discharge into lakes, streams, ponds, or public waters unless in accordance with NPDES Permit. For guidance, contact the regional office of EPA.

Physical or Chemical Hazard

STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES.

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

IN CASE OF: FIRE, if possible isolate container in open air or well ventilated area. Flood with large volume of water.

IN CASE OF: CONTAMINATION OR DECOMPOSITION, do not reseal container.

MAWS 59 ACID WASH SANITIZER is recommended for use in spray machines to sanitize and clean eggs prior to sale on commercial eggs or to use on incubation eggs. MAWS 59 ACID WASH SANITIZER is also recommended for use in sanitizing dishes, glasses, food processing equipment and utensils including dairy and brewery equipment and utensils.

---

**Directions for Use**

---

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. For Egg Wash: Dissolve 0.9 oz. of MAWS 59 ACID WASH SANITIZER in 10 gal. of warm (125°F) water. The following requirements shall be met:  
(a) The washing operation shall be continuous and shall be completed as rapidly as possible. Eggs shall not be allowed to stand or soak in water. Immersion-type washers shall not be used. (b) Washed eggs shall be spray rinsed with MAWS 59 ACID WASH SANITIZER solution (0.9 oz./10 gal.) to provide 100 ppm of available chlorine. (c) At intervals during use, MAWS 59 ACID WASH SANITIZER should be added to the circulating spray rinse solution to maintain 100 ppm available chlorine.

2. For dishes, glasses, food processing equipment and utensils: Dissolve 1/2 or 0.9 oz. of MAWS 59 ACID WASH SANITIZER per 10 gal. of warm (125°F) water. This provides 50 to 100 ppm of available chlorine. Clean and rinse items prior to sanitizing. Then dip the items to be sanitized in solution and hold for 2 or 3 minutes. The same solution may be used in the feed tank in immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, and food processing equipment and utensils. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, add more of this product to maintain a use solution of up to 100 ppm available chlorine.

---

**Storage and Disposal**

---

**STORAGE:** Retie polyethylene liner after each use and keep container tightly closed. Store in a dry place. Do not allow water to get into container. Keep container off wet floors. Do not contaminate water, food, or feed by storage or disposal.

**DISPOSAL:** Wastes of this pesticide may cause irreversible eye damage and burns to skin and may be dangerous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

**CONTAINER DISPOSAL:** Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. Rinse empty container with water, and dispose of in the same manner.
