DIRECTIONS FOR USE

It is unlawful to use this product in any manner inconsistent with its labeling.

This product is recommended for fall application prior to planting durum wheat and barley to control green foxtail (*Setaria viridis*) and yellow foxtail (*Setaria lutescens*) in addition to wild oats. Green and yellow foxtail are commonly referred to as, bigongrass. Do not treat other crops with this product, because injury may occur.

Application equipment must be properly calibrated; application of too much herbicide may injure the crop; application of too little may result in poor weed control. Recommended rates should be followed in order to

1. How many people
2. How many people
3. How many people

If a lot of this product not consistent with this label may
result in a crop loss. Please do not use this product on crops not
intended. To request a refund, keep container closed to
prevent evaporation and contamination.

How do you feel about the fact that only a high proportion of the population have access to land and produce? Do you think that the government should do more to help the poor?
