800 N. Lindbergh Blvd.  
St. Louis, MO 63167

Attn: Richard W. Hermann

Subject: Product Name: Convert-A-Clor 90M Tablets - 1" Tablets  
EPA Reg. No.: 524-402  
Convert-A-Clor 60M Granules  
EPA Reg. No.: 524-404  
Convert-A-Clor 90M Tablets 3" Tablets  
EPA Reg. No.: 524-411  
Amendment of February 20, 1990

A review of your amendment has been conducted and the following comments apply.

o The simplification of the use directions, adding shock treatments and pesticide and container disposal instructions for household use is acceptable.

o The name changes listed below are acceptable under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.

- a) Crystal Pure 90M Sanitizer  
One Inch Tablets - EPA 524-402
- b) Crystal Pure 60M Sanitizer Granules  
EPA Reg. No. 524-404
- c) Crystal Pure 90M Sanitizer  
Three Inch Tablets  
EPA Reg. No. 524-411

58559:1:Pringle:4-15:KENCO:04/09/90:05/06/90:CL:sw:vo:dd:dq

Stamped copies are enclosed for your records. Five copies of the finished labeling for each product must be submitted before you release the product for shipment.

Sincerely yours

Walter C. Francis  
Acting Product Manager (32)  
Antimicrobial Program Branch  
Registration Division (H7505C)

**CRYSTAL PURE 90M SANITIZER  
ONE INCH TABLETS**

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the purpose  
registered under EPA Reg. No.

524-402  
95%  
4%  
1%  
100%

**ACTIVE INGREDIENT:**

**TRICHLORO-S-TRIAZINETRIONE  
SODIUM BROMIDE**

**INERT INGREDIENTS**

**Contains 86% Available Chlorine  
Provides 194% Available Bromine With Continued Use in Accordance  
With the Directions for Use**

**CRYSTAL PURE 90M SANITIZER, One Inch Tablets can be used in many feeders to treat pools, spas and hot tubs continuously. When used as directed, CRYSTAL PURE 90M SANITIZER, One Inch Tablets will disinfect the water, keeping it clean, clear and free of odor. CRYSTAL PURE gives the effectiveness of chlorine without the chlorine odor.**

**KEEP OUT OF REACH OF CHILDREN  
D A N G E R !**

**FIRST AID (PRACTICAL TREATMENT)**

**IF SWALLOWED, promptly drink a large quantity of water. DO NOT induce vomiting. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Avoid alcohol. Get medical attention.**

**IF IN EYES, flush with plenty of water for 15 minutes. Get medical attention.**

**IF ON SKIN, immediately brush off excess chemical and flush with plenty of soap and water. Remove contaminated clothing. Wash clothing before reuse. Get medical attention if irritation persists.**

**IF INHALED, remove person to fresh air. Get medical attention.**

**NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.**

**See side panel for DIRECTIONS FOR USE.**

**EPA Reg. No. 524-402  
EPA Est. No. 39841-MO-1**

**Manufactured for Monsanto Company  
St. Louis, MO 63167

## DIRECTIONS FOR USE

---

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### FOR CONTROL OF BACTERIA AND ALGAE IN POOLS, SPAS AND HOT TUBS

**STARTUP:** To start up a new pool, spa or hot tub, or one that has been refilled, clean all surfaces and the filter and balance the total alkalinity at 125-175 ppm. Treat the water for iron, copper and manganese if present and adjust the pH to 7.5-8.0. Then add an EPA registered source of Sodium Bromide to provide an initial concentration of 5-10 ppm bromide ion. Follow the directions and precautions on the label for the registered Sodium Bromide product. As a guide, using a Technical Grade of registered source of sodium bromide at 95% purity, it requires 0.5-1 ounce per 100 gallons for spas or hot tubs and 0.5 to 1.0 lbs. per 10,000 gallons for swimming pools to provide 5-10 ppm bromide ion. The sodium bromide remains as a stable reserve in the water until the addition of CRYSTAL PURE 90M SANITIZER, One Inch Tablets which cause bromine to be released. Place the CRYSTAL PURE 90M SANITIZER, One Inch Tablets in a suitable floater or feeder. Adjust the feeder according to the manufacturer's directions to obtain an active bromine level of 2-6 ppm using a bromine test kit (or 1-3 ppm available chlorine using a chlorine test kit).

**MAINTENANCE:** The best results are usually obtained if the bromine levels, pH and total alkalinity are maintained as prescribed in the Startup Instructions. Test bromine level frequently. If the bromine level is below the prescribed levels, adjust feeder to increase tablet dissolution rate to maintain 2-6 ppm available bromine (1-3 ppm available chlorine). If the bromine (or chlorine) levels are above the prescribed limits adjust the feeder to decrease the tablet dissolution rate to maintain 2-6 ppm available bromine (1-3 ppm available chlorine). Wait until the levels drop to the prescribed levels before using the pool, spa or hot tub. Add tablets to feeder as necessary.

**SHOCK TREATMENT:** Water soluble, non-filterable wastes can accumulate in the water of pools, spas or hot tubs and cause dull or cloudy water and stimulate algae growth. For Shock Treatment, use CRYSTAL PURE 60M Granules (EPA Reg. No. 524-404) to establish the required levels of 10-20 ppm active bromine (5-10 ppm active chlorine). Follow the recommended dosages in the Directions for Use on the label for that product.

**STORAGE AND DISPOSAL**

---

**STORAGE:** Keep container tightly closed. Store in a dry place. Do not allow water to get into container. Keep container off wet floors.

**PESTICIDE DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance. Clean equipment and/or dispose of equipment wash water in a manner to avoid contamination of water resources.

**For Household Containers:** Securely wrap original container in several layers of newspaper and discard in trash.

**CONTAINER DISPOSAL:**

**For Plastic Pail:** Completely empty pail by shaking and tapping sides and bottom to loosen clinging particles. Rinse empty container with water, and dispose of it in a sanitary landfill or by incineration if allowed by state and local authorities.

**For Fibre Drums:** Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. Rinse empty container with water and dispose of it in the same manner.

**For Household Containers:** Do not reuse container. Rinse thoroughly before discarding in trash.
