

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

TOWERBROM 9010 TABLETS
Three Inch Tablets
BROMINE GENERATING TABLETS

ACTIVE INGREDIENT:

TRICHLORO-S-TRIAZINETRIONE	88.2%
SODIUM BROMIDE	9.7%
INGREDIENTS	2.1%
	<u>100%</u>

ACCEPTED

with COMMENTS

in EPA Letter Dated

JAN 18 1988

Contains 79.4% available Chlorine

and 17.7% available Bromine with continued use in accordance with the
Directions for Use

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF SWALLOWED, drink promptly a large quantity of water. DO NOT induce vomiting. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Avoid alcohol. Get medical attention.

IF IN EYES, flush with plenty of water for 15 minutes. Get medical attention.

IF ON SKIN, immediately brush off excess chemical and flush with plenty of soap and water. Remove contaminated clothing. Wash clothing before reuse. Get medical attention if irritation persists

IF INHALED, remove person to fresh air. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

TOWERBROM 9010 TABLETS, Three Inch Tablets consist of two active ingredients. When dissolved in water, the Tablets release hypochlorous acid which reacts with sodium bromide contained in the tablets to produce hypobromous acid. Hypobromous acid produced from TOWERBROM 9010 TABLETS, Three Inch Tablets is a disinfectant which will control organic slimes of algae, bacteria and fungi in recirculation water of condensing and cooling equipment.

See side panel for DIRECTIONS FOR USE.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

DANGER!

CORROSIVE. CAUSES EYE AND SKIN DAMAGE IRRITATING TO NOSE AND THROAT. HARMFUL OR FATAL IF SWALLOWED. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES.

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

Environmental Hazard

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES Permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Physical or Chemical Hazard

STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE-CONTAINING GASES. DECOMPOSES AT 460°F. to 480°F. WITH LIBERATION OF HARMFUL GASES.

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion.

IN CASE OF: FIRE, if possible isolate container in open air or well ventilated area. Flood with large volume of water.

IN CASE OF: CONTAMINATION OR DECOMPOSITION, do not reseal container.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RECIRCULATING AND ONCE-THROUGH COOLING WATER SYSTEMS

TOWERBROM 9010 Tablets, Three Inch Tablets aid in the control of bacterial, fungal and algal slimes in evaporative condensers, heat exchange water systems, commercial and industrial cooling towers, ornamental fountains, influent systems such as flow through filters, lagoons, industrial water scrubbing systems and non-contact cooling systems for brewery pasteurizers. This product may be added to the system continuously or intermittently as needed. The frequency of feeding and duration of the treatment will depend on the severity of the contamination.

Badly fouled systems must be cleaned before treatment is begun.

FOR CONTROL OF BACTERIA, FUNGI AND ALGAE

Intermittent or Slug Method

Initial Dose: When the system is noticeably fouled, add TOWERBROM 9010 TABLETS, Three Inch Tablets at the rate of .5 to 1.0 pounds (1-3 tablets) per 1000 gallons of water (60-120 ppm) in the system to achieve 1-5 ppm total residual halogen as chlorine, as measured by a suitable test kit. Repeat dosage until residual is achieved.

Subsequent Dose: When microbial control is evident, add TOWERBROM 9010 TABLETS, Three Inch Tablets at the rate of .1 to 0.5 pounds (1/2-1 tablet) per 1000 gallons of water (12-60 ppm) in the system to achieve 1 ppm total residual halogen as chlorine, as determined by a suitable test kit. Repeat dosage until residual is achieved.

Continuous Feed Method

Initial Dose: When the system is noticeably fouled, add TOWERBROM 9010 TABLETS, Three Inch Tablets at the rate of .5 to 1.0 pounds (1-3 tablets) per 1000 gallons of water (60-120 ppm) in the system to achieve 1-5 ppm total residual halogen as chlorine as measured by a suitable test kit. Repeat dosage until residual is achieved.

Subsequent Dose: When microbial control is evident, add TOWERBROM 9010 TABLETS, Three Inch Tablets at the rate of .1 to 0.5 pounds (1/2-1 tablet) per 1000 gallons of water (12-60) ppm in the system to achieve 1 ppm total residual halogen as chlorine, as determined by a suitable test kit. Repeat dosage until residual is achieved.

Storage and Disposal

STORAGE: Keep container tightly closed. Store in a dry place. Do not allow water to get into container. Keep container off wet floors.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.
