EZJECT[®]

Selective Injection Herbicide Capsules

BY **Monsanto**

- Water soluble herbicide in capsules for stem injection.
- Controls undesirable woody brush, trees and vines—roots and all.

Keep out of reach of children.

CAUTION!

Read the entire label before using this product.
 Use only according to label instructions.
 Read "LIMIT OF WARRANTY AND LIABILITY" before buying or using.
 If terms are not acceptable, return at once unopened.
 REFORMULATION OR REPACKAGING IS PROHIBITED.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION!

HARMFUL IF SWALLOWED.

CAUSES EYE IRRITATION.

Avoid contact with eyes, skin or clothing.

FIRST AID: IF IN EYES, immediately flush with plenty of water. Get medical attention if irritation persists. Remove product from skin or clothing.

IF SWALLOWED, immediately induce vomiting as directed by medical personnel.

Personal Protective Equipment

Applicators and other handlers must wear long-sleeved shirt and long pants, shoes plus socks. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washing, see statement

Storage and Disposal

Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

STORAGE:

Keep container closed to prevent spills and contamination. At the end of each use period, remove unused capsules from EZJECT[®] capsule injection system. Replace unused capsules in original container and re-seal.

DISPOSAL:

Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in an landfill approved for pesticide disposal or in accordance with applicable Federal, state and local procedures.

This product is recommended for woody brush, tree and vine control in all noncropland sites, including forestry, roadsides, rights-of-way, industrial, residential, commercial, railroads and aquatic sites.

For aquatic sites, this product may be injected into stems of trees and brush standing in water or wetlands. Do not apply directly to water or inject into stems below the water level.

Woody vegetation may be controlled by injection of EZJECT[®] selective injection herbicide capsules. Inject the capsules using only the EZJECT capsule injection equipment. The capsules must penetrate through the

LIMIT OF WARRANTY AND LIABILITY

This Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth in the Complete Directions for Use ("Directions") when used in accordance with those Directions under the conditions described therein. NO OTHER EXPRESS WARRANTY OR IMPLIED WARRANTY OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY IS MADE. This warranty is also subject to the conditions and limitations stated herein.

Buyer and all users shall promptly notify this Company of any claims whether based in contract, negligence, strict liability, other tort or otherwise.

Buyer and all users are responsible for all loss or damage from use or handling which results from conditions beyond the control of this Company, including, but not limited to, incompatibility with products other than those set forth in the Directions, application to or contact with desirable vegetation, unusual weather, weather conditions which are outside the range considered normal at the application site and for the time period when the product is applied, as well as weather conditions which are outside the application ranges set forth in the Directions, application in any manner not explicitly set forth in the Directions, moisture conditions outside the moisture range specified in the Directions, or the presence of products other than those set forth

Hazards to Humans and Domestic Animals

CAUTION!
HARMFUL IF SWALLOWED.
CAUSES EYE IRRITATION.
 Avoid contact with eyes, skin or clothing.
FIRST AID: IF IN EYES, immediately flush with plenty of water. Get medical attention if irritation persists. Remove product from skin or clothing.
IF SWALLOWED, immediately induce vomiting as directed by medical personnel.

Personal Protective Equipment
 Applicators and other handlers must wear long-sleeved shirt and long pants, shoes plus socks. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:
 User should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

In case of emergency involving this product,
 Call Collect, day or night, (314) 694-4000.

Environmental Hazards

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Storage and Disposal

Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

STORAGE:
 Keep container closed to prevent spills and contamination. At the end of each use period, remove unused capsules from EJECT® capsule injection system. Replace unused capsules in original container and re-seal.

DISPOSAL:
 Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in an landfill approved for pesticide disposal or in accordance with applicable Federal, state and local procedures.

This product is recommended for woody brush, tree and vine control in all noncropland sites, including forestry, residential, rights-of-way, industrial, residential, incinerators, railroads and aquatic sites.

For aquatic sites this product may be injected into stems of trees and brush standing in water or wetlands. Do not apply directly to water or inject into stems below the water level.

Woody vegetation may be controlled by injection of EJECT® selective injection herbicide capsules. Inject the capsules using only the EJECT capsule injection equipment. The capsules must penetrate through the outer bark into living phloem tissue to provide effective results.

For trees with less than 2.5 inch DBH (diameter breast height), inject one capsule per stem.

Inject one capsule every 4 inches, evenly around the trunk of the tree, below all major branches.

Tree may be injected at any time of the year except when wood is frozen.

This product moves throughout the tree from the point of injection to all roots and shoots. Symptoms appear gradually (normally within 2 to 4 weeks), beginning with wilting, yellowing and browning of the foliage. This is followed by deterioration of all roots and shoots.

This product will control the following species:

Alder	Douglas fir	Mountain maple
Aspen, quaking	Elm	Oak
Big-leaf maple	Eucalyptus	Ponderosa pine
Birch	Lodgepole pine	Vine maple
Ceanothus	Madrone	Willow
Cottonwood	Maple	

Specific recommendation for many species of woody brush, trees and vines, other than those listed above, are under development.
