(314) 694-4000.

**Environmental Hazards**

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

**Storage and Disposal**

Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

**PESTICIDE STORAGE:** Keep container closed to prevent spills and contamination. At the end of each use period, remove unused capsules from E-Z-JECT capsule injection system. Replace unused capsules in original container and re-seal.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in an landfill approved for pesticide disposal or in accordance with applicable Federal, state and local procedures.

**General Information**

This product is recommended for woody brush, tree and vine control in all non-cropland sites, including forestry, roadsides, rights-of-way, industrial, residential, fencerows, railroads and aquatic sites. Woody vegetation may be controlled by injection of E-Z-JECT selective injection herbicide capsules.

This product moves throughout the tree from the point of injection to all roots and shoots. Symptoms appear gradually (normally within 2 to 4 weeks), beginning with wilting, yellowing and browning of the foliage. This is followed by deterioration of all roots and shoots.

For aquatic sites, this product may be injected into stems of trees and brush standing in water or wetlands. Do not apply directly to water or inject into stems below the water level.

**Application Instructions**

Inject the capsules using only the E-Z-JECT capsule injection equipment. The capsules must penetrate through the outer bark into living phloem tissue to provide effective results.

For trees with less than 2.5 inch DBH (diameter at breast height), inject one capsule per stem.

Inject one capsule every 4 inches, evenly around the trunk of the tree, below all major branches.

Tree may be injected at any time of the year except when wood is frozen.

**Weeds Controlled**

This product will control the following species:

- |                |           |                |
|----------------|-----------|----------------|
| Alder          | Hackberry | Ponderosa pine |
| Ash            | Hawthorn  | Poplar         |
| Aspen, quaking | Hazel     | Poplar, yellow |
