PRECAUTIONARY STATEMENTS

**Hazards to
Humans and Domestic Animals**

Keep out of reach of children.

CAUTION!

**HARMFUL IF SWALLOWED OR INHALED.
MAY CAUSE EYE IRRITATION.**

Avoid contact with skin, eyes or clothing.
Avoid breathing dust.
Wash thoroughly with soap and water after handling.

**FIRST AID: IF IN EYES, immediately flush with plenty of water.
Get medical attention.**

**IF ON SKIN, immediately flush with plenty of water. Remove
material from skin and clothing.**

**IF INHALED, remove individual to fresh air. Seek medical attention
if breathing difficulty develops.**

**IF SWALLOWED, remove visible particles from mouth and rinse mouth
thoroughly with water. Swallow water to dilute. Get medical
attention. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.**

**In case of an emergency involving this product, Call Collect, day
or night, (314) 694-4000.**

Environmental Hazards

**Do not apply directly to water, or to areas where surface water is
present, or to intertidal areas below the mean high water mark.
Do not contaminate water when disposing of equipment washwaters.**

Physical or Chemical Hazards

**Spray solutions of this product should be mixed, stored and applied
using only stainless steel, aluminum, fiberglass, plastic or
plastic-lined steel containers.**

1991-11-04

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers and tanks to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could flash or explode, causing serious personal injury, if ignited by open flame, spark, welder's torch, lighted cigarette or other ignition source.

ACTIVE INGREDIENT:

* Glyphosate, N-(phosphonometnyl)glycine, in the form of its monoammonium salt.....93.96%

INERT INGREDIENTS:.....6.04%
100.00%

* Equivalent to 85% of the acid, glyphosate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

Storage and Disposal

Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

DISPOSAL:

Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or in accordance with applicable Federal, state or local procedures.

Emptied container retains vapor and product residue. Observe all labeled safeguards until container is destroyed. Do not reuse container.

Completely empty packet into application equipment. Dispose of packet in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Dispose of box in same manner.

BEST AVAILABLE COPY

General Information

This product, a water soluble granule, mixes readily with water to be applied as a foliar spray for the control of most herbaceous and woody plants. It may be applied through most standard pumpup, backpack or similar sprayers after dilution and thorough mixing with water in accordance with label instructions.

This product moves through the plant from the point of foliar contact to and into the root system. Visible effects on most annual weeds occur within 2 to 4 days, but on most perennial weeds may not occur for 7 days or more. Extremely cool or cloudy weather following treatment may slow activity of this product and delay visual effects of control. Visible effects are a gradual wilting and yellowing of the plant which advances to complete browning of aboveground growth and deterioration of underground plant parts.

Rainfall or irrigation occurring within 6 hours after application may reduce effectiveness. Heavy rainfall or irrigation within 2 hours after application may wash the chemical off the foliage and a repeat treatment may be required.

This product does not provide residual weed control. For extended weed control, either reapply this product when weeds reemerge, or use a tank mixture of this product with a residual herbicide (See the "Tank Mixtures" section of this label), or apply an approved residual herbicide in a separate application. Read and carefully observe the cautionary statements and all other information appearing on the labels of all herbicides used.

Buyer and all users are responsible for all loss or damage in connection with the use or handling of mixtures of this product with herbicides or other materials that are not expressly recommended in this labeling. Mixing this product with herbicides or other materials not recommended on this label may result in reduced performance.

This product is recommended for commercial, industrial and residential weed control in areas such as airports, golf courses, highways and roadsides, industrial plant sites, institutional sites, municipalities, lawns, dry ditchbanks, dry canals, lumberyards, nurseries, greenhouses, shadehouses, parking areas, parks, playgrounds, petroleum tank farms, farmsteads, fencerows, pipeline, power and telephone and utility rights-of-way, railroads, schools, storage areas, Christmas tree plantations, woodland areas and similar sites.

This product controls many weeds around buildings, signposts, trees, fences, sidewalks, driveways and patios; in vacant lots, storage and recreational areas; and prior to planting turfgrasses, shrubs, trees and flower beds.

Keep people and pets off treated areas until spray solution has dried.

DO NOT APPLY THROUGH ANY TYPE OF IRRIGATION SYSTEM.

DOMESTIC ANIMALS: This product is considered to be relatively nontoxic to dogs and other domestic animals; however, ingestion of this product or large amounts of freshly sprayed vegetation may result in temporary gastrointestinal irritation (vomiting, diarrhea, colic, etc.). If such symptoms are observed, provide the animal with plenty of fluids to prevent dehydration. Call a veterinarian if symptoms persist for more than 24 hours.

ATTENTION

AVOID DRIFT. EXTREME CARE MUST BE USED WHEN APPLYING THIS PRODUCT TO PREVENT INJURY TO DESIRABLE PLANTS AND CROPS.

THIS PRODUCT CAN INJURE OR DESTROY ALL VEGETATION CONTACTED. AVOID SPRAY CONTACT WITH THE FOLIAGE OF DESIRABLE TURF, ORNAMENTALS, SHRUBS OR TREES. DO NOT SPRAY GREEN BARK OR EXPOSED NONWOODY ROOTS OF DESIRABLE TREES AND SHRUBS. IF SPRAY CONTACTS THESE PARTS OF DESIRABLE PLANTS, THEY SHOULD BE RINSED IMMEDIATELY WITH WATER.

Do not allow the herbicide solution to mist, drip, drift, or splash onto desirable vegetation since this product can cause severe damage or destruction to the crop, plants, or other areas on which treatment was not intended. The likelihood of injury occurring from the use of this product is greatest when winds are gusty or in excess of 5 miles per hour or when other conditions, including lesser wind velocities, will allow spray drift to occur. When spraying, avoid combinations of pressure and nozzle type that will result in splatter or fine particles (mist) which are likely to drift. **AVOID APPLYING AT EXCESSIVE SPEED OR PRESSURE.**

NOTE: Use of this product in any manner not consistent with this label may result in injury to persons, animals or crops, or other unintended consequences. Keep container closed to prevent spills and contamination.

BEST AVAILABLE COPY

Mixing and Spraying

Add 1 packet of this product to 1 gallon of clean water:

Step 1: Fill the spray tank with the desired amount of water.

Step 2: Add the contents of 1 packet per gallon of water.

Step 3: Gently agitate the mixture until all of the product has dissolved and is well mixed.

NOTE: IF USING A LABELED TANK MIXTURE, ADD THE TANK MIX PRODUCT TO THE TANK FIRST ACCORDING TO LABELED DIRECTIONS, THEN ADD THIS PRODUCT.

This product is premeasured to give the correct concentration for general weed control.

Agriculturally approved colorants or marking dyes may be added to this product. Use colorants or dyes according to the manufacturer's recommendations.

Nonionic surfactants may be used with this product. Use according to the surfactant manufacturer's directions.

Applications should be made on a spray-to-wet basis. Spray coverage should be uniform and complete. Do not spray to the point of runoff.

Cleaning of Equipment

Triple-rinse sprayer and flush all sprayer components with water to remove residues of this product. After thorough cleaning, equipment may be used to apply other products.

Tank Mixtures

When applied as a tank mixture, this product provides control of emerged weeds listed in this label and preemergence control of the weeds listed in the individual product labels.

Trim and Edge Treatments

This product can be used to control weeds for trimming and edging around many structures, including buildings, sidewalks, roads, patios, fences, and gravel and bark mulch beds. It can also be used to remove weeds around obstacles to mowing such as park benches, golf course markers, trees, light poles, sign posts, fence posts, etc.

Site Preparation

This product does not provide residual weed control.

After an area has been treated with this product, any ornamental species, bedding plant, turfgrass, and tree species (including Christmas trees) can be planted.

Delay mowing, clipping or tilling treated areas for 7 days to allow time for the product to move within the treated vegetation for most effective results. Where the treated vegetation will not be disturbed, planting may be done 1 day following treatment.

Post-Directed Applications

This product can be used for spot-spraying weeds found in shrub beds, ornamental plantings, ground covers, nurseries, Christmas tree plantings, forestry and similar sites.

Avoid spray contact with desirable plants. To avoid injury on desirable plants, prevent spray or drift contact with foliage, stems, bark or exposed nonwoody roots. Do not spray into, or over the top of, desirable plants, trees or shrubs.

Turfgrass Renovation

Seedbed preparation and seeding, sodding or sprigging of turfgrass species may be done 7 days following treatment of weeds or undesirable turf grasses. Where the treated vegetation will not be disturbed by seedbed preparation (tillage, aeration, power raking, etc.), seeding may be done 1 day following treatment. Ensure adequate seed/soil contact and follow a thorough watering schedule.

Greenhouse/Shadehouse

This product may be used to control weeds listed on this label which are growing in greenhouses and shadehouses. Desirable vegetation must not be present during application and air circulation fans must be turned off.

WEEDS CONTROLLED

Annual Weeds

Apply to actively growing annual grass and broadleaf weeds.

Allow at least 3 days after application before disturbing treated vegetation. After this period, the weeds may be mowed, tilled or burned.

When applied as directed under the conditions described, this product will control the following annual weeds :

Balsamapple
Barley: little, wild
Barnyardgrass
Bassia, fivehook
Bedstraw, catchweed
Bluegrass, annual
Bluegrass, bulbous
Bromes
Buttercup
Cheat
Chervil
Chickweed: jagged, mouseear
Clovers

- Cocklebur
- Crabgrass
- Dwarf dandelion
- False flax, smallseed
- Fiddleneck
- Flaxleaf fleabane
- Fleabane
- Foxtail
- Foxtail, Carolina
- Geranium, Carolina
- Groundsel, common
- Henbit
- Horseweed/Marestail
- Kochia
- Lambsquarters, common

- Stinkgrass
- Sunflower
- Thistle, Russian
- Spurry, umbrella
- Velvetleaf
- Wheat
- Witchgrass

BEST AVAILABLE COPY

Perennial Weeds

Apply to actively growing perennial weeds.

Allow at least 7 days after application before disturbing treated vegetation. After this period, the weeds may be mowed, tilled or burned.

Repeat treatments may be necessary to control weeds regenerating from underground parts or seeds.

When applied as directed under the conditions described, this product will control the following perennial weeds:

Alfalfa
Alligatorweed
Artichoke, Jerusalem
Bahigrass
Bermudagrass
Bindweed, field
Bluegrass, Kentucky
Blueweed, Texas
Brackenfern
Bromegrass, smooth
Broomsedge
Canarygrass, reed
Cattail
Clovers
Cogongrass
Cutgrass, giant
Dallisgrass
Dandelion
Dock, curly
Dogbane, hemp
Fescues
Guineagrass
Horsenettle
Horseradish
Johnsongrass
Kikuyugrass
Knapweed
Lantana
Loosestrife, purple
Lotus, American
Maidencane
Milkweed
Muhly, wirestem
Mullein, common
Napiergrass
Nightshade, silverleaf
Nutsedge: purple, yellow
Orchardgrass
Pampasgrass
Paragrass
Phragmites
Quackgrass
Reed, giant
Ryegrass, perennial
Smartweed, swamp
Sweet Potato, wild

Thistle, Canada
 Timothy
 Torpedograss
 Tules, common
 Vaseygrass
 Waterprimrose
 Wheatgrass, western

Woody Brush and Trees

When applied as recommended under the conditions described, this product CONTROLS or PARTIALLY CONTROLS the following woody brush, plants and trees:

Alder
 Ash
 Aspen, quaking
 Bearmat (Bearclover)
 Birch
 Blackberry
 Broom: French, scotch
 Buckwheat, California*
 Cascara*
 Catsclaw*
 Ceanothus*
 Chamise
 Cherry: bitter, black, pin
 Coyote brush
 Creeper, Virginia*
 Dewberry
 Elderberry
 Elm*
 Eucalyptus, bluegum
 Hasardia*
 Hawthorn
 Hazel
 Honeysuckle
 Kudzu
 Locust, black*
 Madrone
 Manzanita
 Maple: red, sugar, vine
 Monkey Flower*
 Oak
 Persimmon*
 Poison ivy
 Poison oak
 Poplar, yellow*
 Raspberry
 Rose, multiflora
 Russian-olive**
 Sage, black

- Sagebrush, California
- Salmonberry
- Saltbush, Sea myrtle
- Sassafras
- Sourwood
- Sumac
- Sweetgum
- Swordfern*
- Tallowtree, Chinese
- Tan oak
- Thimbleberry
- Tobacco, tree*
- Trumpet creeper
- Waxmyrtle, southern
- Willow

- * Partial control
- ** This product is not registered in California for use on Russian-olive.

Apply this product when plants are actively growing and, unless otherwise directed, after full leaf expansion. Best results are obtained when application is made in late summer or fall after fruit formation.

In arid areas, best results are obtained when application is made in the spring to early summer when brush species are at a high moisture content.

Symptoms may not appear prior to frost or senescence with fall treatments.

Allow 7 or more days after application before tillage, mowing or removal. Repeat treatments may be necessary to control plants regenerating from underground parts or seed. Applications to undesirable deciduous species containing some autumn color development is acceptable provided no major leaf drop has occurred. Reduced performance may result if fall treatments are made following a killing frost.

LIMIT OF WARRANTY AND LIABILITY

This Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth in the Complete Directions for Use label booklet ("Directions") when used in accordance with those Directions under the conditions described therein.
