PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: If swallowed, may cause gastrointestinal tract irritation. Wash thoroughly with soap and water after handling. In case of an emergency involving this product, Call Collect, day or night, (314)694-4000.
[Picture of telephone receiver]

ENVIRONMENTAL HAZARDS

Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.
READ THE ENTIRE LABEL BEFORE USING THIS PRODUCT. USE ONLY ACCORDING TO THE FOLLOWING DIRECTIONS AND OBSERVE ALL PRECAUTIONS.

Roundup® Ready-To-Use ~~GRASS AND WEED~~ KILLER is fast acting. When absorbed by contacted foliage, it is carried throughout the stems and roots to give complete kill of tough annual and perennial weeds and grasses. Roundup is broken down in the soil by microbes. Once in contact with soil, it has no weed killing activity and will not move in or on the soil to affect nearby vegetation.

HOW TO USE:

IMPORTANT: This product is an all-purpose weed and grass killer which can injure or kill all plants contacted. **APPLY ONLY WHEN AIR IS CALM. AVOID SPRAY CONTACT ON DESIRABLE PLANTS. IF NECESSARY, SHIELD DESIRABLE PLANTS TO PREVENT CONTACT WITH SPRAY.** If spray or drift accidentally contacts desirable vegetation, wash off immediately with water. Rainfall within 6 hours could affect performance. Avoid mowing, cutting or otherwise disturbing sprayed vegetation for at least 7 days. People and pets should stay off area until thoroughly dry to ensure that product is not tracked into areas where desirable plants are growing.

For spot application adjust the nozzle to a coarse spray. Position sprayer tip approximately 1-2 feet from weeds, grasses, and undesirable plants, and apply until completely covered. Sprayed plants usually show effects within 3 days with complete kill in 2 to 4 weeks. For best results, apply to actively growing weeds, grasses and undesirable plants in warm sunny weather. If certain hard-to-control weeds are not completely killed within 4 weeks, repeat application. Sprayed areas can be reseeded or replanted, 7 or more days after application.
