BACK PANEL

Roundup® ~~E & G Ready-To-Use Fast-Acting Formula Grass & Weed Killer~~ is fast-acting. Edger is a premixed, premeasured, ready-to-use weed killer. The built-in sprinkler applicator makes it easy to use for trimming and edging along fences, walkways, patios, and around ornamentals, trees and shrubs to control weeds and grasses. Roundup enters the plants through the leaves and moves ~~when absorbed by contacted foliage, it is carried throughout the stems and roots to~~ give complete kill of tough ~~annual and perennial~~ weeds and grasses. ~~Roundup is broken down in the soil by microbes.~~ Once in contact with soil, it has no weed killing activity and will not move ~~in or on the soil~~ to affect nearby vegetation.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL BEFORE USING THIS PRODUCT. USE ONLY ACCORDING TO THE FOLLOWING DIRECTIONS AND OBSERVE ALL PRECAUTIONS.

WHERE TO USE:

Apply along driveways, fences, walkways, cracks in sidewalks, and around ornamentals, trees and shrubs. Roundup can be used over the root zone of desirable plants without injury.

WHEN TO APPLY:

Apply anytime when weeds and grasses are actively growing. Plants usually show effects within 3 days with complete kill in 2 - 4 weeks. Roundup works best in warm sunny weather. Rainfall within 6 hours after application could affect performance. Retreat if regrowth occurs.

HOW TO USE APPLY:

Remove top cap. Make sure the built-in sprinkler applicator is firmly in place.

To use as an edger along lawns, fences, driveways and around trees and shrubs:

Turn jug upside down

Walk slowly holding jug 2 - 6 inches above the ground or weeds

Apply product to thoroughly cover unwanted vegetation

One gallon will cover a band 2 inches wide and 1200 feet long

To control weeds in larger areas, such as brick or gravel walks and patios:

Turn jug upside down

Hold jug about waist high to apply

Adjust the width of the spray pattern to cover weeds by raising or lowering the jug

If desirable plants are accidentally treated, rinse off immediately with water. People and pets may re-enter treated areas when spray has dried.

~~IMPORTANT: This product is an all-purpose weed and grass killer which can injure or kill all plants contacted. APPLY ONLY WHEN AIR IS CALM. AVOID SPRAY CONTACT ON DESIRABLE PLANTS. IF NECESSARY, SHIELD DESIRABLE PLANTS TO PREVENT CONTACT WITH SPRAY. If spray or drift accidentally contacts desirable vegetation, wash off immediately with water. Rainfall within 6 hours could affect performance. Avoid mowing, cutting or otherwise disturbing sprayed vegetation for at least 7 days. People and pets should stay off area until thoroughly dry to ensure that product is not tracked into areas where desirable plants are growing.~~

~~For spot application adjust the nozzle to a coarse spray. Position sprayer tip approximately 1-2 feet from weeds, grasses, and undesirable plants, and apply until completely covered. Sprayed plants usually show effects within 3 days with complete kill in 2 to 4 weeks. For best results, apply to actively growing weeds, grasses and undesirable plants in warm sunny weather. If certain hard-to-control weeds are not completely killed within 4 weeks, repeat application. Sprayed areas can be reseeded or replanted, 7 or more days after application.~~

~~WEEDS CONTROLLED: Roundup Ready To Use will completely kill most tough annual weeds, grasses and any undesirable plants found in and around fences, trees, driveways, flower beds, walkways and shrubs. [PICTURES OF 4-5 COMMON WEEDS]~~

~~Bahiagrass, Barnyardgrass, Bermudagrass, Blackberry, Thistle, Chickweed, Common Ragweed, Crabgrasses, Dandelion, Fescues, Field Bindweed, Foxtail, Johnsongrass, Kentucky Bluegrass, Kudzu, Lambsquarters, Orchardgrass, Perennial Ryegrass, Poison Ivy, Poison Oak, Quackgrass, Shepherdspurse, Clover and Yellow Nutsedge and many other annual and perennial grasses, weeds, sedges and brush.~~
