CONTAINS ONE (9 gm) EFFERVESCENT TABLET

Roundup®
QUIK STIK
Grass & Weed Killer

Directions for Mixing

1. Cut open foil pouch or follow pack opening instructions.

2. Fill container ~~sprayer~~ with 12 fl. oz. (1½ cups) of clean water and add tablet. Do not shake.

3. Wait 1-3 minutes until tablet is completely dissolved.

4. Add an additional 12 fl. oz. clean water, seal and use.

 PRECAUTIONARY STATEMENTS

 HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION! Wash thoroughly with soap and water after handling. Keep children and pets off treated area until spray is thoroughly dry.

FIRST AID: If it appears that a part of the tablet has been ingested, remove visible particles from mouth. Rinse mouth with water. Have person drink water or milk.

In case of an emergency involving this product, Call Collect, day or night, (314) 694-4000. *(Picture of telephone receiver)*

 ENVIRONMENTAL HAZARDS

Do not apply directly to water ~~or~~ to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

 PHYSICAL OR CHEMICAL HAZARDS

Spray solutions of this product should be mixed, stored ~~or~~ and applied ~~using~~ ONLY in stainless steel, aluminum, fiberglass, plastic or plastic-lined steel containers. DO NOT MIX, STORE OR APPLY SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAYERS. Use of this product in such containers could result in the formation of an explosive hydrogen gas mixture which could flash or explode if ignited by open flames or any other ignition source.

 DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

BACK PANEL

STORAGE AND DISPOSAL

Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

STORAGE: ~~STORE THIS PRODUCT UNOPENED TABLETS ONLY IN ITS ORIGINAL CONTAINER AND IN A SECURE STORAGE AREA. PROTECT FROM MOISTURE. Protect product from moisture. Tablets and spray solutions should be stored in a secure area away from children and pets.~~

DISPOSAL: To dispose of unused product or solutions of this product, securely wrap original container or container of solution, in several layers of newspaper and discard in trash. Do not reuse inner wrapping or outer container. Discard both in trash.

Roundup® Quik Stik herbicide, when dissolved in water, is a nonselective grass and weed killer which when absorbed by contacted foliage, is carried throughout the stems and roots to give complete kill of labeled tough annual and perennial grasses and broadleaf weeds. This product has no herbicidal activity in the soil and will not wash or leach to affect nearby vegetation. It is formulated for "spot" application to kill individual weeds around trees, shrubs, fences, patios, walks, flower gardens, and for lawn renovation. Yellowing and wilting usually occur within one week with a complete kill in 2 to 4 weeks. For best results, apply to actively growing undesirable plants in warm sunny weather. One application will control most listed weeds. If certain hard-to-control weeds are not completely killed within 4 weeks, repeat application. Treated areas can be reseeded or replanted 7 or more days after application.

MIXING AND SPRAYING

~~Do not apply this product through any type of irrigation system. Use pump-up type or hand-trigger sprayers. For product identification, apply the Roundup® Quik Stik Grass & Weed Killer sticker (enclosed in the box) to the sprayer. Fill the sprayer with 12 oz (1½ cups) of clean water and then add one effervescent tablet. DO NOT SHAKE the sprayer to accelerate dissolution. Wait until the tablet has completely dissolved (1-3 minutes) and add an additional 12 oz of clean water before sealing the sprayer. (One tablet makes 24 oz of spray solution.) DO NOT SEAL THE SPRAYER UNTIL THE TABLET IS COMPLETELY DISSOLVED. Use of hose-end sprayers or sprinkler devices may result in poor and/or erratic results.~~

Use pump-up type, or hand-trigger sprayers or refill the convenient Roundup L&G Ready-to-Use Grass & Weed Killer 24 fl oz spray bottle. (One Quik Stik tablet makes 24 fl oz of spray solution.) For product identification, be sure to apply the Roundup® Quik Stik Grass & Weed Killer stickers (enclosed in the box) to the front and back of the dry, clean sprayer. Fill the empty sprayer with 12 fl oz (1-1/2 cups) of clean water and then add one effervescent tablet. DO NOT SHAKE the sprayer to accelerate dissolution. Wait until the tablet has completely

dissolved (1-3 minutes) and add an additional 12 fl oz of clean water before sealing the sprayer. DO NOT SEAL THE SPRAYER UNTIL THE TABLET IS COMPLETELY DISSOLVED. Do not apply this product through any type of irrigation system. Do not use in ~~Use of~~ hose-end sprayers or with sprinkler devices ~~may result in poor and/or erratic results.~~

Position sprayer tip approximately 1-2 feet from the weed and apply to completely cover the weed, stopping just before the spray begins to run off.

CLEANING EQUIPMENT

Triple-rinse sprayer and flush all sprayer components with water to remove residues of this product. After thorough cleaning, equipment may be used to apply other products. Before using any sprayer to apply other products, remove both Quik Stik label identification stickers. Do not reuse Roundup L&G Ready-To-Use sprayers to apply other products.

WEEDS CONTROLLED: Bahiagrass, Barnyardgrass, Bermudagrass, Blackberry, Thistles, Chickweed, Common Ragweed, Crabgrasses, Dandelion, Kudzu, Fescues, Field Bindweed, Foxtail, Johnsongrass, Kentucky Bluegrass, Lambsquarter, Orchardgrass, Perennial Ryegrass, Poison Ivy, Poison Oak, Quackgrass, Shepherdspurse, Smooth Bromegrass, Sowthistle, White Clover and Yellow Nutsedge and many other annual and perennial grasses, weeds, sedges and brush.

IMPORTANT: This product is a nonselective weed killer which can injure or kill all vegetation contacted. AVOID SPRAY CONTACT ON DESIRABLE PLANTS. APPLY ONLY WHEN THE AIR IS CALM. If spray or drift accidentally contacts desirable vegetation, wash off immediately with water. Rainfall within 6 hours could affect performance. Avoid mowing, cutting or otherwise disturbing treated vegetation for at least 7 days.
