Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Fungicide, Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label change: Revise the EPA Registration Number to read, "EPA Reg. No. 524-481".

You must submit the following product chemistry data within one year of the date of registration:

- a. 61-2 Starting Materials and Manufacturing Process: An amendment to the manufacturing process is required providing the complete details of the full scale equipment and operating conditions.
- b. 61-3 Discussion of Impurities: A detailed discussion is required concerning the revised process control, purification and quality control procedures used in full scale production which resulted in the reduction of one impurity of concern to levels almost 10 times lower than the levels found in earlier pilot scale production.
