Attention: Mr. James A. Tompkins Team Leader (25)

Subject: Roundup UltraMAX herbicide (EPA Reg. No. 524-512) Supplemental Labeling for Selective Equipment in Vegetables Final Printed Label

NOTIFICATION AUG 3 0 2002

Dear Mr. Tompkins:

Enclosed for your files are three copies of a Final Printed Supplemental Label for Roundup UltraMAX herbicide for weed control in vegetables and strawberries using selective equipment.

On 10-Dec-2001, the Agency approved a Master Label for all uses registered under EPA Reg. No. 524-454. That approval included these uses. Because labels for Roundup UltraMAX herbicide were already in the marketplace, the newly approved uses must be communicated by supplemental label. We anticipate that any future printing of the booklet will include all relevant uses from the 10-Dec text.

The enclosed label contains the 10-Dec approved label text pertaining to selective equipment as it applies to vegetables and strawberries. Preplant and preemergent uses are already part of the printed booklet text.

SUPPLEMENTAL LABELING

READ THE ENTIRE LABEL FOR ROUNDUP ULTRAMAX[®] HERBICIDE BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING.

When using Roundup UltraMAX Herbicide as permitted according to this supplemental labeling, read and follow all applicable directions, restrictions, and precautions on the label booklet provided with the pesticide container and on this supplemental labeling. This supplemental labeling must be in the possession of the user at the time of pesticide application.
