### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application.

AVOID CONTACT OF HERBICIDE WITH FOLIAGE, GREEN STEMS, EXPOSED NON-WOODY ROOTS OR FRUIT OF CROPS, DESIRABLE PLANTS AND TREES, BECAUSE SEVERE INJURY OR DESTRUCTION MAY RESULT.

See "GENERAL INFORMATION", "MIXING", AND "APPLICATION EQUIPMENT AND TECHNIQUES" sections of the label booklet for Fire Power herbicide for essential product performance information.

---

### RECOMMENDATIONS

---

For general use directions, see the "Tree And Vine Crops (General)" section and for specific directions, see the "Vine Crops" section of the Fire Power herbicide label booklet. The use directions in these sections apply also to Juice Grapes, in addition to the types of Grapes already listed in the "Vine Crops" section of the Fire Power herbicide booklet.

TYPES OF APPLICATIONS: General weed control, middles (between rows of trees), strips (in row of trees), selective equipment in **DORMANT** vine crops.

GENERAL USE INSTRUCTIONS: This product may be applied in middles, strips and for general weed control in established vineyards. This product may also be used for site preparation prior to transplanting these crops. Direct spray toward the base of vines.

ACCEPTED

DEC 4 2002

For rates refer to the "ANNUAL WEEDS RATE TABLE". Single applications can not exceed 4 quarts of Fire Power herbicide per acre. Repeat applications may be made up to a maximum of 8 quarts per acre per year.

Applications may be made with boom equipment, CDA, shielded sprayers, hand-held and high-volume wands, lances, orchard guns or with wiper applicator equipment, except as directed.

**THE FOLLOWING RESTRICTIONS APPLY TO VINE CROPS:**

Unless otherwise directed, do not apply Fire Power herbicide during the period between bud swell and completion of final harvest or when fruit are present. This product may be applied upon completion of final harvest.

In Arizona and California, this product may be applied during the period following completion of final harvest up to February 15 (February 1<sup>st</sup> in the Coachella Valley, CA). Applications made after the calendar dates above, but prior to bud swell, may result in significant crop injury and are the responsibility of the user.

**PRECAUTIONS, RESTRICTIONS:** Allow a minimum of 3 days between application and transplanting. Applications should not be made when green shoots, canes or foliage are in the spray zone. Applications to grapes that are not staked or trellised are not recommended, unless vines are free-standing.

---

**Read the "Limit of Warranty and Liability" in the label booklet for Fire Power herbicide before using. These terms apply to this supplemental labeling and if these terms are not acceptable, return the product unopened at once.**
