Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 524-520

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application.

AVOID CONTACT OF HERBICIDE WITH FOLIAGE, GREEN STEMS, EXPOSED NON-WOODY ROOTS OR FRUIT OF CROPS, DESIRABLE PLANTS AND TREES, BECAUSE SEVERE INJURY OR DESTRUCTION MAY RESULT.

See "GENERAL INFORMATION", "MIXING", AND "APPLICATION EQUIPMENT AND TECHNIQUES" sections of the label booklet for Fire Power herbicide for essential product performance information.

#### USE INSTRUCTIONS

See the "CROPS" section of the label booklet Fire Power herbicide for specific instructions on applications in "Vine Crops," "Tree Fruits (Including Tropical)," "Tree Nuts," "Citrus Crops (Nonbearing Only)," "Fallow Systems," and "Vegetable Crops."

#### Application Information

Apply up to 4 quarts per acre of Fire Power herbicide per single application. Repeat applications may be made up to a maximum of 8 quarts per acre. For rate recommendations refer to the Fire Power herbicide label booklet. For best results, apply this product after most weeds have germinated but before weeds

exceed the maximum size recommended.

Weed Species	Rate (fluid ounces per acre)
	24 - 32
	<b>Maximum Height/Length (in inches)</b>
Burning Nettle	3 -12

Fire Power herbicide may be tank mixed with residual herbicides as specified on the main label booklet

Applications may be made with ground broadcast equipment, CDA, shielded sprayers, hand-held and high volume wands, lances, orchard guns or with wiper applicator equipment.

**DO NOT** apply this product through any type of irrigation or chemigation system.

Nonionic surfactant is recommended. Use 2 qts per 100 gallons of spray solution (0.5%) when using surfactants with at least 70% active ingredient. Use 4 qts per 100 gallons of spray solution (1%) when using surfactants containing less than 70% active ingredient.

**PRECAUTIONS AND RESTRICTIONS**

The following use restrictions must be observed when Fire Power herbicide is used alone or in any spray combination recommended on this label.

- See the "General Application Precautions and Restrictions" section of the label booklet for this product. Read and observe all label directions before using. When tank mixing, always read all individual manufacturer' labels. In interpreting all labels for the tank mixture, the most restrictive situations must apply.
- The maximum amount of Fire Power herbicide applied must not exceed 8 quarts per acre per year.
- Fire Power herbicide should be applied only around healthy growing trees.
- Direct spray toward the base of tree. Avoid direct herbicide contact with foliage or nuts.

**Read the "Limit of Warranty and Liability" in the label booklet for Fire Power herbicide before using. These terms apply to this supplemental labeling and if these terms are not acceptable, return the product unopened at once.**
