HOW TO APPLY

- Adjust nozzle to coarse spray.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.

IMPORTANT: DO NOT SPRAY PLANTS OR GRASSES YOU LIKE - THEY MAY DIE TOO. Not recommended for spot weed control in lawns since Roundup kills lawn grasses.

WHEN TO APPLY • Apply when weeds are actively growing. • For best results, apply during warm, sunny weather (above 60° F). • Spray when air is calm to prevent drift to desirable plants. • Plants such as ornamental flowers, trees, and shrubs may be damaged 30 days after application. • Rain or watering 1 hour after application will not wash away effectiveness. **NOTE:** Do not use for lawn renovation or flower bed and vegetable garden preparation (plot preparation); instead use Roundup Concentrate or Roundup Super Concentrate.
