DIRECTIONS FOR USE

1. It is a violation of federal law to use this product in a manner inconsistent with its labeling.
2. This product may not be used for seed or commercial commodity production.
3. This product may be used only by Monsanto for breeding Bollgard® and BollgardII® cotton in laboratories, greenhouses, or breeding nurseries.
4. The following restrictions apply to the use of this product:

- a. Breeding nurseries, regardless of plot size, established in Hawaii must not be planted within 3 miles of *Gossypium tomentosum* and must be surrounded by 24 border rows of a suitable pollinator trap crop.
- b Breeding nurseries of this product are prohibited on the U.S. Virgin Islands.
- c. Breeding nurseries, regardless of plot size, established on the island of Puerto Rico may be established without restriction if insecticide applications are used to effectively mitigate gene flow. Otherwise, established breeding nurseries, regardless of plot size, established on the island Puerto Rico must not be planted within 3 miles of feral cotton and must be surrounded by 24 border rows of a suitable pollinator trap crop.
- d. No breeding nurseries are permitted south of Route 60 (near Tampa) in Florida.
