U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Biopesticides and Pollution Prevention Division (7511P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C.  20460

EPA Reg. Number: 524-618  
Date of Issuance: 10/29/2015

Term of Issuance: Unconditional

Name of Pesticide Product: MON 87411

Name and Address of Registrant (include ZIP Code):
Monsanto Company  
800 North Lindbergh Boulevard  
St. Louis, MO  63167

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA Registration Number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA or the Act).

Registration is in no way to be construed as an endorsement or recommendation of this product by the U.S. Environmental Protection Agency (EPA). In order to protect health and the environment, the Administrator, on his or her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you comply with the following terms:

1. The subject registration will automatically expire at midnight on October 31, 2017.

2. Submit and/or cite all data required for registration or registration review of your product when the EPA requires all registrants of similar products to submit such data.

Signature of Approving Official:  
Kimberly Nesci, Chief  
Microbial Pesticides Branch  
Biopesticides and Pollution Prevention Division (7511P)  
Office of Pesticide Programs  
Date: 10/29/2015
3. The subject registration will be limited to *DvSnf7* dsRNA and Cry3Bb1 [Double-stranded ribonucleic acid transcript comprising a *DvSnf7* inverted repeat sequence derived from western corn rootworm (*Diabrotica virgifera virgifera*) and *Bacillus thuringiensis* Cry3Bb1 protein and the genetic material necessary for their production (vector PV-ZMIR10871) in MON 87411 corn (OECD Unique Identifier: MON-87411-9)] for use in field corn.

4. This plant-incorporated protectant may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants to produce inbred corn lines and hybrid corn varieties with combined pesticidal traits.

5. Planting seed containing this plant-incorporated protectant may only be planted for the purposes of agronomic evaluation, seed increase, and production in breeding nurseries as specified in the terms of this registration and on the labeling. Commercial plantings of this product for the purposes of grain production and controlling insect pests are prohibited.

6. Plants that contain this plant-incorporated protectant may be grown on 15,000 acres or less in total per year in the United States (U.S.).

7. Harvested seed should not be allowed for sale as commercial seed in the U.S. under the current terms of this registration but may be used only for the purposes of further agronomic evaluation, seed increase, and production in breeding nurseries, as well as be returned to contracted Monsanto Company facilities or third party facilities to be stored for later use for the listed purposes.

8. Make the following labeling change before you release this product for shipment:
   - Revise the EPA Registration Number to read, “EPA Reg. No. 524-618.”

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6. A stamped copy of the labeling is enclosed for your records.
Please also note that the record for this product currently contains the following acceptable Confidential Statement of Formula (CSF):

- Basic CSF dated 02/04/2014

If you have any questions, please contact Jeannine Kausch of my branch by phone at (703) 347-8920 or via email at kausch.jeannine@epa.gov.

Sincerely,

Enclosure
Active Ingredients:
dsRNA transcript comprising a DvSnf7 inverted repeat sequence derived from *Diabrotica virgifera virgifera*, and the genetic material necessary for its production (vector PV-ZMIR10871) in MON 87411 corn (OECD Unique Identifier MON-87411-9) .......................................................... \( \leq 0.000000772\% \)

*Bacillus thuringiensis* Cry3Bb1 protein and the genetic material necessary for its production (vector PV-ZMIR10871) in MON 87411 corn (OECD Unique Identifier MON-87411-9) .......................................................... \( \leq 0.0075\% \)

Other Ingredient:
CP4 EPSPS protein (5-enolpyruvylshikimate-3-phosphate synthase) and the genetic material necessary for its production (vector PV-ZMIR10871) in MON 87411 corn (OECD Unique Identifier MON-87411-9) .......................................................... \( \leq 0.0013\% \)

* Percentage (wt/wt) on a dry weight basis whole plant (forage)

KEEP OUT OF REACH OF CHILDREN

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Planting seed containing MON 87411 may only be planted for the purposes of agronomic evaluation, seed increase and production in breeding nurseries as specified in the terms of this registration and on the labeling. Commercial plantings of this product for the purposes of grain production and controlling insect pests are prohibited.

MON 87411 may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants to produce inbred corn lines and hybrid corn varieties with combined pesticidal traits.

Corn has been transformed to express the DvSnf7 dsRNA and *Bacillus thuringiensis* Cry3Bb1 protein for the control of the following coleopteran corn pests:

- **Western corn rootworm**: *Diabrotica virgifera virgifera*
- **Mexican corn rootworm**: *Diabrotica virgifera zeae*
- **Northern corn rootworm**: *Diabrotica barberi*

Plants that contain MON 87411 may be grown on 15,000 acres or less in total per year in the U.S.

Harvested seed should not be allowed for sale as commercial seed in the U.S. under the current terms of this registration but may be used only for the purposes of further agronomic evaluation, seed increase, and production in breeding nurseries, as well as be returned to contracted Monsanto Company facilities or third party facilities to be stored for later use for the listed purposes.

There are no refuge requirements for planting of MON 87411.
