Office of Pesticide Programs
Biopesticides and Pollution Prevention Division (7511M)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

524-731

Date of Issuance:

09/09/2026

NOTICE OF PESTICIDE:

☒ Registration

☐ Reregistration

(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

MON 95379 x MIR162

Name and Address of Registrant (include ZIP Code):

Bayer CropScience LLC
800 North Lindbergh Boulevard
St. Louis, MO 63167

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA Registration Number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the U.S. Environmental Protection Agency. In order to protect health and the environment, the Administrator, on his or her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration or registration review of your product when EPA requires all registrants of similar products to submit such data.

2. The subject registration will be limited to *Bacillus thuringiensis* Cry1B.868, Cry1Da_7, and Vip3Aa20 proteins, and the genetic material necessary for their production (Vectors PV-ZMIR522223 and pNOV1300) in Corn Event MON 95379 x MIR162 (OECD unique identifier MON-95379-3 x SYN-IR162-4).
3. This plant-incorporated protectant product may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants to produce inbred corn lines and hybrid corn varieties with combined pesticidal traits.
4. Planting seed containing this plant-incorporated protectant product may only be planted for the purposes of seed manufacturing, research, agronomic testing, small scale research trials, productions in breeding nurseries, increasing inbred seed stocks and producing hybrid seed as specified in the terms of this registration and on the labeling. Commercial plantings of this product for the purposes of grain production and controlling insect pests are prohibited.
5. Plants that contain this plant-incorporated protectant product may be grown in the states of Nebraska, Hawaii and Iowa up to a maximum total of 100 acres per growing season. Harvested seed cannot be allowed for sale as a commercial seed in the U.S. under the current terms of this registration but any non-treated seed grain containing MON 95379 x MIR162 may be sold as grain.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

A stamped copy of the labeling is enclosed for your records. Please also note that the record for this product currently contains the following acceptable Confidential Statement of Formula (CSF):

- Basic CSF dated 06/23/2026

If you have any questions, please contact Lindsay Adlhoch by phone at (202) 566-0839 or via email at adlhoch.lindsay@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alan Reynolds', is positioned to the left of the digital signature block.

Plant-Incorporated Protectant Label

MON 95379 × MIR162

ACCEPTED

09/09/2026

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under

EPA Reg. No. 524-731

(OECD Unique Identifier: MON-95379-3 × SYN-IR162-4)

Active Ingredients:

Bacillus thuringiensis Cry1B.868 protein and the genetic material (Vector PV-ZMIR522223)
necessary for its production in MON 95379 (OECD Unique Identifier MON-95379-3)
..... ≤0.36%*

Bacillus thuringiensis Cry1Da_7 protein and the genetic material (Vector PV-ZMIR522223)
necessary for its production in MON 95379 (OECD Unique Identifier MON-95379-3)
..... ≤0.1%*

Bacillus thuringiensis Vip3Aa20 protein and the genetic material necessary for its production
(vector pNOV1300) in event MIR162 (Unique Identifier SYN-IR162-4))
..... ≤0.14%*

Other Ingredients:

Phosphomannose isomerase (PMI) marker protein and the genetic material necessary (vector
pNOV1300) for its production in event MIR162 ≤0.0085%*

*Percentage (wt/wt) on a dry weight basis for whole plant (forage) of MON 95379 × MIR162

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. This product must be used as specified in the terms and conditions of the registration.

This plant-incorporated protectant (PIP) may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants.

Commercial plantings of this product for the purposes of grain production and controlling insect pests are prohibited. This product may be planted in the states of Nebraska, Hawaii and Iowa on a maximum total acreage of 100 acres per growing season for breeding operations, for example seed manufacturing, research, agronomic testing, small scale research trials, productions in breeding nurseries, increasing inbred seed stocks and producing hybrid seed. Harvested seed are not allowed for sale as commercial seed in the U.S. under the current conditions of this registration but any harvested material containing this product may be handled in accordance with legal and regulatory requirements (*e.g.*, non-treated seed can be sold as grain). There are no refuge requirements for planting of this product.
