

02 MAR 1992

Ms. Barbara P. Minor  
Rochester Midland  
P.O. Box 1515  
Rochester, NY 14603

Dear Ms. Minor:

Subject: Response to PR Notice 91-7  
Mill-O-Cide "300"  
EPA Reg. No. 527-81  
Submission dated February 14, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

Modify your Directions for Use paragraph in accordance with Title 40 of the Code of Federal Regulations, part 156.10(i). Be sure to include the statement -- "It is a violation of Federal law to use this product in a manner inconsistent with its labeling"-- directly below the "Directions for Use" heading.

The precautions on your label should be categorized under the general heading "Precautionary Statements" followed by the appropriate subheadings such as "Hazards to Humans and Domestic Animals". This paragraph must depict the particular hazards, routes of exposure, and precautions to be taken to avoid injury or damage. Refer to Title 40 of the Code of Federal Regulations, part 156.10(h)(2) for specific guidance.

Sincerely,

  
Richard F. Mountfort  
Product Manager (10)  
Insecticide-Rodenticide Branch  
Registration Division (H7505C)

**FOOD INDUSTRY DIVISION**

MILL-O-CIDE "300" is a high kill contact insecticide for wholesale grocers, supermarkets, bakeries, dairies, bottling plants, packing plants, breweries, mills and other establishments where food is processed or stored. When used as directed, this product will kill accessible weevils, flour moths, silverfish, roaches, flies, gnats and certain other insects on contact.

**DIRECTIONS**

Area to be sprayed should be thoroughly cleaned by removing accumulations from all cracks, shelves, beams and on and around packages of stored food products. Close doors and windows and keep closed for 10 to 15 minutes after spraying. Do not remain in treated areas. Ventilate the area after treatment is completed. Sweep up and dispose of fallen insects.

Where to Spray — Spray MILL-O-CIDE "300" into the air in the form of a fine mist or fog. Spray under and around all equipment and racks, into all cracks, crevices and corners, and on floors, walls and ceilings.

When to Spray — MILL-O-CIDE "300" should be sprayed once or twice a week as a regular procedure and daily in cases of severe infestation.
