

Use CLEEN-SHEEN to clean, disinfect and deodorize in one operation. It is effective for controlling a wide range of bacteria common in food processing operations. Will control mold and mildew growth and is fungicidal.

CLEEN-SHEEN can be used on all floors and on walls, shelves, counters, tables, fountains, sinks, scales, furniture, machinery, utensils and surfaces of enamel, porcelain, ceramic, glass, wood, plastic, stainless steel, aluminum and other metals.

In Supermarket Sanitation Programs: Use CLEEN-SHEEN to clean and sanitize meat cases, condenser coils, cutting blocks and tables, meat slicers, grinders, conveyors, meat carts, meat coolers, tugs, trays, saws, mixers, sausage stuffers, choppers, racks, holding coolers.

DIRECTIONS

To prevent excessive sudsing when preparing CLEEN-SHEEN solution, partially fill container with water, then add CLEEN-SHEEN and mix well. **NOTE: Do not mix with any other cleaning or disinfecting compound. Rinse all food contact surfaces and equipment with potable water before reuse.**

Rough clean and pre-wash all surfaces of heavy soil and food scraps prior to use of CLEEN-SHEEN. Apply CLEEN-SHEEN solution heavily to all surfaces to be sanitized.

For Manual Use: With wet mops, sponges, cloths. Use 2 oz. CLEEN-SHEEN per gallon of water. Change cleaning solution frequently.

For Scrubbing Machine Use: 2 oz. CLEEN-SHEEN per gallon of water. Machine clean entire area. Change cleaning solution frequently.

For High Pressure Washer Use: Machines with 20-1 dilution ratio. Add 1 gallon CLEEN-SHEEN to 4 gallons water in stock tank. Mix well. Before using machine, rough clean area by sweeping. Spray clean area using wash cycle on gun. Rinse food contact surfaces and equipment. Allow to air dry.

For Control of Mold and Mildew Growth on Hard Surfaces: Use 2 oz. CLEEN-SHEEN per gallon of water. Use a damp cloth for application. Repeat application weekly or when new growth appears.

Form 1201-B

CLEEN-SHEEN

GERMICIDAL DETERGENT

EPA REG. NO. 527-85-AA

FORMULATED SPECIFICALLY FOR USE IN THE FOOD HANDLING AND PROCESSING INDUSTRY

CLEANS • SANITIZES • DISINFECTS • DEODORIZES

Phenol Coefficients (A.O.A.C. 20°C.)	A.O.A.C. Use Dilution Confirmation Tests		
Staphylococcus aureus	64	Kills: Staphylococcus aureus	1-64
Salmonella typhosa	50	Kills: Salmonella choleraesuis	1-64
		Kills: Pseudomonas aeruginosa	1-64

ACTIVE INGREDIENTS: Dodecyl dimethyl benzyl ammonium chloride 0.35%; Hexadecyl dimethyl benzyl ammonium chloride 2.10%; Octadecyl dimethyl benzyl ammonium chloride 0.35%; Sodium carbonate 3.00%; Tetradecyl dimethyl benzyl ammonium chloride 4.20%; Tetrasodium ethylene diamine tetraacetate 0.50%.

INERT INGREDIENTS 89.50%

DANGER: KEEP OUT OF REACH OF CHILDREN

See Side Panel for Additional Dangers.

ACCEPTED
with COMMENTS
in EPA Letter 100-1

JAN 25 1985

Under the provisions of the
Federal Insecticide, Fungicide,
and Rodenticide Act, this pesticide
is registered under EPA Reg. No.

527-85

DANGER: KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye damage and severe skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

Attention: Mr. Carl J. Bisanz

Gentlemen:

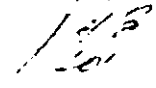

Subject: Clean-Sheen Germicidal Detergent
EPA Registration No. 527-85
Application Dated November 23, 1982

The amendment and label submitted deleting the "Kills Pseudomonas aeruginosa 1:64" claim is acceptable and a stamped label copy is enclosed for your records.

As noted in our letter of May 14, 1981, we would expect the new company designation to appear on the label at the next printing of the label.

You may wish to update your label to reflect the current concept of "Format labeling." See "The Label" attachment. We are certain that your Quat suppliers will be able to help you in this endeavor.

Sincerely yours,

John H. Lee
