

**FOOD PROCESSING EQUIPMENT**

For sanitization of previously cleaned food processing equipment and food utensils dilute 1 ounce F - 25 per 4 gallons of water to provide 200 ppm of active quaternaries. At this level, NO POTABLE WATER RINSE is required.

**DAIRIES**

To sanitize dairy equipment such as tanks, lines, pails, and milk cans, first clean and rinse the equipment thoroughly. Then apply sanitizing solution containing 1 ounce F - 25 to 4 gallons of water (200 ppm). At this level, NO POTABLE WATER RINSE is required. Follow recommendations of local Health Board.

**RESTAURANT AND BAR RINSE**

Dishes, glassware, silverware, cooking utensils, wash with soap or synthetic detergent; rinse thoroughly and immerse in a sanitizing solution containing 1 ounce F - 25 to 4 gallons of water. NO TERMINAL POTABLE WATER RINSE REQUIRED.

 This is a concentrate and should be diluted before using.  
 as directed on the product label.  
 EPA Reg. No. 527-93

**DANGER**

Keep Out of Reach of Children.  
Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling concentrate. Harmful if swallowed. Avoid contamination of food.

**FIRST AID**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

**NOTE TO PHYSICIAN:**

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Rinse empty container thoroughly with water and discard.
