

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: *In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.*

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

The use of ML-17G in industrial and/or commercial recirculating cooling tower systems and industrial air-washing systems will control microbiological growth and slime.

EPA Est. No. 527-NY-1

Form 1169D

ML-17G

MICROBIOCIDIC FOR CONTROL OF MICROORGANISMS IN COOLING WATER AND INDUSTRIAL AIR-WASH SYSTEMS

EPA Reg. No. 527-108

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 25.0%

INERT INGREDIENTS 75.0%

This product contains 2.3 lb. of active ingredient per gallon and weighs 9.2 lb. per gallon.

**DIRECTIONS FOR USE
(Continued)**

COOLING TOWER SYSTEMS: Prior to use, the systems should be cleaned to remove algal growth, microbiological slimes or other deposits. Based on the total amount of water in the system, make an initial treatment 4.5 to 8.8 liquid ounces (40-80 ppm) of ML-17G per 1000 gallons of water. Repeat this dosage until control is attained. Every 2-5 days or as needed, make maintenance additions of 2.3-8.8 liquid ounces (20-80 ppm) of ML-17G per 1000 gallons. The frequency of addition depends upon the amount of bleedoff and the microbiological problem severity. Additions should be made to the sump of recirculating cooling tower systems.

INDUSTRIAL AIR-WASHING SYSTEMS: For use only in systems with effective mist-eliminators. Clean the system to remove bacterial slimes or other deposits present. An initial dose of 10.6-13.6 liquid ounces (93-120 ppm) of ML-17G per 1000 gallons of water in the system is recommended. Repeat this dosage until control is attained. Maintenance additions of 7.9-13.6 liquid ounces (70-120 ppm) of ML-17G per 1000 gallons of water should be made every 1-5 days, or as needed. The frequency of additions will depend on the amount of bleedoff and the bacterial problem severity. Additions may be made to the sump or water collection trays of the air wash system.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
