ROCADYNE

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye damage and skin irritation. Harmful or fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Get a physician. Drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water.

If on skin: Wash immediately with water.

If in eyes: Flush with water for 15 minutes. Get medical attention.

NOTE TO PHYSICIAN: Provoke mucosal damage may contraindicate the use of gastric lavage. Measures against respiratory shock, respiratory depression and convulsions may be needed. Medical Emergency Telephone Number: 718-251-1000 X3.

DIRECTIONS FOR USE

This violation of Federal law to use this product for a purpose not on the label with its labeling.

ROCADYNE may be used on glass, stainless steel, porcelain, painted, lacquered, tin, plastic, and wood surfaces. It may also be used on concrete, terrazzo or galvanized metal pipes. Do not use on masonry and porous surfaces. Do not use on chrome or aluminum. In addition to label uses, it should be used on, but not limited to, equipment, walls, floors, linoleum, concrete, metal, finishes, appliances and utensils.

Always prepare fresh solutions daily. Drain and sucklines which have lost their characteristic fresh prepared color. Thoroughly wet surfaces by flooding, immersion, swabbing, mopping or hosing. Do not reuse solutions.

DISINFECTION: Use 1 liquid ounce to 2 gallons of water (25 ppm iodine). Heavily soiled surfaces should be cleaned and scrubbed prior to disinfecting. Treated surfaces must remain wet for 10 minutes. Hard contact surfaces must be rinsed with potable water before reuse.

Use toilet and sewer disinfectant to remove gross soils from surfaces with bowl brush or swab. Expel excess water in bowl over rim. Add 1 liquid ounce to the bowl. Thoroughly clean bowl, especially around the rim, with a brush or swab. Flush bowl normally and flush as usual.

When disinfecting swine and poultry pens, all manure, slurry and feed must be removed from the pens and treated. Remove all blood and manure from surfaces to be disinfected. Cover with a minimum of 1/2 inch of trough water and after feeding and watering, keep water clean. Remove above items, or dilute all trough water. Do not return animals until treatment has ended.

IODINE DISINFECTANT

EPA REG. NO. 527

CLEANER-DISINFECTANT-SANITIZER-DEODORIZER WITH ORGANIC SOIL TOLERANCE

FOR INDUSTRIAL AND COMMERCIAL USE

Rocadyne Iodine Disinfectant is a proven "one step" cleaner-disinfectant-sanitizer-deodorant in the presence of moderate amounts of organic soil. It is designed for use in the Food Processing Industry including Meat and Poultry Production and Cafeterias, Industrial Establishments, Hospitals, Nursing Homes, Veterinary Clinics, Farms and similar or related establishments.

ACTIVE INGREDIENTS

alpha-Di-nonylphenyl-omega-hydroxypoly	
diallylthyl ether iodine complex	18.00%
(Including 1.75% tetrastat iodine)	
Phosphoric acid	18.00%

INERT INGREDIENTS

85.95%
100.00%

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

(continued)

SANITIZING (food contact surfaces): Remove gross soils by scraping, flushing or mopping. Pre-clean using 1 liquid ounce to gallon of water or other Rochester Midland cleaner. Rinse thoroughly. Sanitize using 1 liquid ounce to 5 gallons of water (25 ppm iodine), allowing a 1-2 minute contact time. Drain and air dry. **DO NOT RINSE.**

RETORT COOLING WATER: Use 1 liquid ounce to 5-10 gallon retort cooling water (12-24 ppm iodine) depending on the need. Use only the amount necessary to control odor and/or slime.

HAND SANITIZING: Use 1 liquid ounce to 5 gallons of water (2 ppm iodine) as a hand sanitizing rinse. Immerse hands in solution for 30-80 seconds.

POULTRY DRINKING WATER SANITIZATION: Add 1 liquid ounce to each 10 gallons of drinking water. Regular use in the drinking water helps keep the waters free of slime and mineral deposits.

DEODORANT: For general deodorant application of garbage or refuse containers, or other odor causing inanimate environment surfaces, apply a solution of 1 liquid ounce per 1 gallon of water.

SHOE BATH SANITIZATION: Use 3 liquid ounces to 1 gallon of water. Scrape off the footwear outside of the bath and stand in the bath for 30 seconds. This procedure helps prevent the tracking of disease organisms into animal quarters.

ANIMAL CLEANING: Scrub down flanks and udder with lukewarm solution of 1 liquid ounce per gallon of water before placing sows in farrowing pens or crates. Use a soft bristle brush. Dry sow clean dry and do not nurse until just before farrowing.

STORAGE AND DISPOSAL

STORAGE: Store only in tightly closed, original container in a cool, secure area. Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or empty container is a violation of Federal Law. If these wastes cannot be disposed of by other means, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or in other approved state and local procedures.
