

[537-7]

PAXIDE Powder

DIRECTIONS:

Roaches and Silverfish: Blow plenty of "PAXIDE POWDER" into cracks, crevices, behind sinks, stoves, storage areas, moldings and other areas frequented by these insects. Ants: Place "PAXIDE POWDER" into ant hills, door frames, window sills, ant trails and around locations where ants are seen. Bed Bugs: Apply "PAXIDE POWDER" into mattress seams, around beds, mouldings and other furniture. For the control of fleas, ticks, and lice from dogs, cats, horses and cattle: Blow "PAXIDE POWDER" over their bodies, gently rubbing towards their skin. Repeated applications may be necessary until all pests are no longer seen. Do not use in commercial food preparation areas or in edible products areas in food processing plants. Avoid contamination of feed and foodstuffs.
