

BACK:

"ALL-OUT"  
SPOT WEEDER

DIRECTIONS

Use any time weeds are a problem.

SHAKE WELL. Invert can to direct spray on leaves and crown of plants. Wet foliage thoroughly with a 2 or 3 second burst of spray. Avoid any watering for 24 hours until chemical can be absorbed by plants.

Severe browning of treated vegetation occurs within 12 hours. In cool weather action is slower.

Do not dig up dead weeds. They will decay. Meanwhile, they afford protection for lawn seed which can be sown in spots vacated by the weeds.

Repeat treatment whenever needed.

One treatment

( barnyardgrass  
buckhorn  
chicory  
chickweeds  
crabgrass  
clover  
dandelion  
dog fennel  
foxtail  
goosegrass  
knotweed  
lambsquarters  
lonegrass  
nutsedge  
panicgrass  
pigweed  
plantain  
poa annua  
purslane  
smartweed  
speedwell

spotted spurge  
velvetgrass  
wild carrot  
witchgrass

two treatments

bentgrass  
bluegrass  
dallisgrass  
false dandelion  
fine fescue  
nimbleweed
