1. The first of these is the fact that the United States has a large and growing population of people who are not citizens of the United States. This is a result of the large number of people who have immigrated to the United States in recent years, and the fact that many of these people are not naturalized citizens.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
