Subject: Registration Review Label Amendments for Atrazine Incorporating Mitigation Measures from the Interim Decision and the Technical Registrants' Commitments for the Endangered Species Act (ESA) Biological Evaluation
Product Name: Scotts Bonus S
EPA Registration Number: 538-18
Application Date: 10/26/2020
Decision Number: 567485

Dear Mr. Zemanek:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Atrazine Interim Decision and with the technical registrants' commitments for the ESA Biological Evaluation. The Agency has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved

Page 2 of 2
EPA Reg. No. 538-18
Decision No. 567485

labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Quinn Gavin at gavin.quinn@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Linda Arrington", with a long horizontal flourish extending to the right.

Linda Arrington, Branch Chief
Risk Management and Implementation Branch 4
Pesticide Re-Evaluation Division
Office of Pesticide Programs

[FIRST AID AND ENVIRONMENTAL HAZARDS]

[Keep Out of Reach of Children]

[CAUTION]

Precautionary Statements

Hazards to Humans and Domestic Animals [icon]

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID [icon]

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If swallowed: Call A poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. Call: 1-877-465-5161 (**number is available 24/7/365**)

Environmental Hazards [icon]

This product is toxic to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treated area. Sweeping any product that lands on a driveway, sidewalk, or street, back into the treated area of the lawn will help to prevent run off to water bodies or drainage systems. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Do not clean equipment over hard surfaces or near storm drains.

Atrazine can travel (seep or leach) through soil and enter ground water which may be used as drinking water. Atrazine has been found in ground water. Users are advised not to apply Atrazine on sand and loamy soils where the water table (groundwater) is close to the surface and where these soils are very permeable; i.e., well drained. Your local agricultural agencies can provide further information on the type of soil in your area and the location of ground water.

NON-TARGET ORGANISM ADVISORY: This product is toxic to plants and may adversely impact the forage and habitat of non-target organisms, including pollinators, in areas adjacent to the treated site. Protect the forage and habitat of non-target organisms by following label directions intended to minimize drift

Note to PM:
Bold, italicized text is information for the reader and is not part of the label.
[Bracketed information is optional.] Text separated by / denotes and/or options.

[KEY PRODUCT FACTS]

[APPLICATION]

[HOW AND WHEN TO APPLY]

[Apply in late winter, spring, or fall]

OPTION 1 – DIRECTIONS FOR USE

DIRECTIONS FOR USE

It is violation of federal law to use this product in a manner inconsistent with its labeling.

Control

- Apply when grass and weeds are actively growing. If complete control is not obtained a second treatment may be required 2 months after the first.
- [Apply in the Fall to control winter weeds such as henbit, chickweed, rabbit-tobacco, eveningprimrose.]
- Controls ***insert one or more weeds from following weed list*** [Controls weeds as listed above/below] **or** Kills/Controls listed weeds ***Note to PM: The weed list may appear elsewhere on the label and be referenced in the Directions for Use***

Black medic	Eveningprimrose	Red sorrel/sheep sorrel
Blue toadflax	Florida betony	Rescuegrass
Buckhorn	Florida pusley	Shepherd's purse
Burclover	Fragrant cudweed/rabbit-tobacco	Sowthistle
Carolina geranium/cranesbill	Henbit	Stinging nettle
Chickweed	Lippia/Matchweed	Venus lookingglass
Dandelion	Oxalis/Yellow woodsorrel	Wild mustard
Dichondra	Pepperweed/peppergrass	Clover, Hop
Dollarweed/Pennywort	Purslane	Clover, White

Reentry

- Do not allow people or pets to enter treatment areas until watering-in is complete and the surface is dry.

Restrictions

- DO NOT APPLY DURING WINTER DORMANCY PERIOD. WAIT UNTIL AFTER THIRD MOWING OF THE SEASON TO APPLY.
- Do not apply to lawns or mixed lawns of bahiagrass, bermudagrass, bluegrass, fine fescue, bentgrass, ryegrass, tall fescue or dichondra because injury may occur.
- Apply only when grass is dry.
- Do not apply this product in a way that will contact any person either directly or through drift. Keep people and pets out of area during application.
- Do not apply by hand or hand-held rotary devices such as hand-held rotary applicator.
- This product must be WATERED IN IMMEDIATELY after application.
- Maximum single application is 2 lbs. active ingredient per acre, no more than two applications per year (4 lbs. a.i./acre/yr.).
- Do not use under trees, shrubs, bedding plants, flower or garden plants
- Not for use in the states of Hawaii or Alaska, or in the U.S. territories (Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, and the North Mariana Islands)

Seeding/Sprigging.

Apply Scotts Bonus S after sprigging a new St. Augustine or zoysia lawn to prevent competition from germinating weeds. Water the new sprigs, allow the grass blades to dry, then make the application of Scotts Bonus S.

- Don't apply to newly seeded centipede and carpetgrass lawns until after the new grass has been mowed at least twice.
- Don't plant sprigs for one month, or sow new grass seed for six months following application of Scotts Bonus S.

Note to PM:

Bold, italicized text is information for the reader and is not part of the label.

[Bracketed information is optional.] Text separated by / denotes and/or options.

OPTION 2 – DIRECTIONS FOR USE

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconstant with its labeling.

[USE RESTRICTIONS]

Don't apply to lawns or mixed lawns of bahiagrass, bermudagrass, bluegrass, fine fescue, bentgrass, ryegrass, tall fescue or dichondra because injury may occur. Don't apply to newly seeded centipede and carpetgrass lawns until after the new grass has been mowed at least twice. Don't plant sprigs for one month, or sow new grass seed for six months following application. Do not apply during winter dormancy period. Wait until after third mowing of the season to apply.

Do not apply this product in a way that will contact any person either directly or through drift. Keep people and pets out of area during application. Do not allow people or pets to enter treatment areas until watering-in is complete and the surface is dry. Do not apply by hand or hand-held rotary devices such as hand-held rotary applicator. Do not use under trees, shrubs, bedding plants, flower or garden plants.

[INSTRUCTIONS]

Scotts Bonus S controls a wide range of lawn weeds, including broadleaf weeds and annual weeds commonly found in home lawns. In addition, a XX-X-X fertilizer provides a supply of plant food needed for growth.

- Apply only when grass is dry.
- This product must be WATERED IN IMMEDIATELY after application.
- Maximum single application is 2 lbs. active ingredient per acre, no more than two applications per year (4 lbs. a.i./acre/yr.).
- Not for use in the states of Hawaii or Alaska, or in the U.S. territories (Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands, and the North Mariana Islands)

[CONTROL]

- Apply when grass and weeds are actively growing. Controls weeds listed below. If complete control is not obtained, a second treatment maybe required 2 months after the first.
- [Apply in the Fall to control winter weeds such as henbit, chickweed, rabbit-tobacco, eveningprimrose.]

REENTRY

- People and pets may re-enter treated area after product is watered-in and surface is dry

[SPRIGGING]

- Apply after sprigging a new St. Augustine or zoysia lawn to prevent competition from germinating weeds. Water the new sprigs, allow the grass blades to dry, then make the application.

[Weeds Controlled:] Note to PM: The weed list may appear elsewhere on the label and be referenced in the Directions for Use

SPREADER SETTING INFORMATION Note to PM: The following are optional formats to present spreader setting information. Appropriate spreader settings, spreader brand names, and coverage will be inserted on Final Printed Label

This package applies [3.45] lbs of product per 1,000 sq ft.

Spreading Tips

[Scotts recommends the PF Spreader to receive the maximum value from Scotts Bonus S.]

[For best results, use a Scotts spreader:]

Scotts Drop:

[Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Then operate spreader the longest way of the lawn. Overlap wheel marks to insure uniform feeding. Shut off spreader when you have reached the header strips or stopped.]

(ILLUS.)

Scotts EasyGreen™/ insert brand name Rotary:

[Shut off spreader anytime you stop. For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs. Avoid applying this product on flower, vegetable and shrub plantings.]

(ILLUS.)

Scotts SpeedyGreen™/ insert brand name Rotary:

[Shut off spreader anytime you stop. For complete coverage make each pass about five feet from the previous one so some overlapping occurs. Avoid applying this product on flower, vegetable and shrub plantings.]

(ILLUS.)

Spreader Setting (covers X,XXX sq ft)

Spreader	Spreader Setting
Scotts Drop Spreader	X
Scotts EasyGreen® / insert brand name	XX
Scotts SpeedyGreen®/ insert brand name	X

For even application walk at a steady pace slightly overlapping each pass.

Scotts/**insert brand name** Drop Spreaders: Align hopper arrow with previous wheel track.

Scotts /**insert brand name** Broadcast/Rotary Spreaders: Line up each pass approximately 5 ft. from wheel track.

(Non-Scotts spreader settings are approximate. You may need to adjust for proper coverage.)

[DESIRABLE PLANTS: DO NOT APPLY ON OR UNDER THE BRANCH SPREAD (ROOTZONE) OF TREES, SHRUBS, BEDDING PLANTS, FLOWERS, OR GARDEN PLANTS, PARTICULARLY IN COMPACT, SLOWLY DRAINING SOILS IN THE DALLAS-FT WORTH AREAS.]

[Spreader]	Spreader Setting REGULAR RATE covers X,XXX sq. ft.	DIRECTIONS
Scotts Drop Spreaders	X	Mow lawn first; apply 2 header strips; apply longest direction of lawn, overlapping wheel marks.
Scotts EasyGreen® / insert brand name Rotary	X	Make each pass about XX inches from previous pass to overlap spread width.
Scotts SpeedyGreen® / insert brand name Rotary	X	Make each pass about X feet from previous pass to overlap spread width.

THE SCOTTS STORY OPTIONS

Option 1

Scotts is there/here for your lawn care needs.

Founded in 1868, we are proud of our long history and celebrate the lawn by offering best-in-class products. [We start with the fundamental truth; your lawn is a living, growing thing.] [We start with the fundamental truth; the lawn is alive]. Our scientists embrace this truth by developing technologies that benefit the lawn and fit your lawn care needs. If you need to feed the lawn – we are here. If you have issues with pesky weeds – we’ve got your back. So if you’re a die-hard lawn warrior or a novice learning how to care for your lawn – [let us help.] [We would like to help].

Option 2

Scotts is your go-to for everything lawn care. We’re extremely proud of our heritage and proven expertise. And we celebrate this by continually offering industry-leading products—always with the consumer in mind.

We believe the fundamental truth; your lawn is alive. With that in mind, we create advanced technologies and innovative formulas that help create the lawn you’ve always dreamed of. From feeding and maintaining your lawn to protecting against weeds, pests/insects and disease, we have the best-in-class products and advice to help you successfully care for your lawn this season—and for years to come.

Option 3

Scotts has helped people create the lawn they’ve always dreamed of. Founded in 1868 by O.M. Scott, we’re extremely proud of our rich history and hard-earned reputation. And honored to be the leader in lawn and garden care for everyone from first-time gardeners to seasoned green thumbs.

We do it by developing advanced technologies and innovative formulas—all based on your needs. From feeding and maintaining a hearty, beautiful lawn to banishing pesky weeds, we have the best-in-class products—and expert advice—to consistently make garden care easier and a lot more enjoyable.

XX	X	X
NITROGEN	PHOSPHORUS	POTASSIUM
Essential for plant growth; makes grass green.	Stimulates root growth; helps grass multiply.	Makes plant strong; better able to resist drought and extreme heat

[Lawncare Information:] [Water Smart®] Tips for Lawncare Success:

- Feed regularly for your best lawn – Regular feedings of Scotts [Turf Builder] [insert alternate brand/product name] will help build a lawn you and your family can enjoy. Scotts [Turf Builder] [insert alternate brand/product name] provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought and family activity.
- Mow your lawn high. Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively.
- Leave the grass clippings on your lawn. This recycles the plant nutrients back into the soil.
- Conserve water. Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature's sprinkler and rely on the rain to water your lawn.

[art] one annual feeding

[art] 2-3 annual feedings

[art] 4 annual feedings

Tips for Lawncare Success:

[icon: granules falling on grass] **Feed Regularly**

Regular feedings provide the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought & family activity

Benefits of Multiple Feedings [art] one annual feeding [art] 2-3 annual feedings [art] 4 annual feedings

[icon: lawn mower] **Mow and Leave the Grass Clippings on Your Lawn**

Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively. Grass clippings recycle the plant nutrients back into the soil.

[Water Smart™ logo][Water Smart Makes The Most Of Every Drop™] **Conserve Water** Well-fed lawns are more efficient at using available water. Feeding with Scotts [fertilizer/lawn food] helps grow/build a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat drought and other stresses. Remember your lawn will begin to wilt when water is needed. As much as possible take advantage of nature's sprinkler and rely on the rain to water your lawn.

What to expect

Weeds will be dead/killed within 6 weeks and your lawn will be greener in 7 days

Controls and prevents weeds while feeding your lawn. Scotts Bonus S gives you a better lawn. That's because each small particle delivers weed control for complete coverage. And Scotts Bonus S feeds your lawn with Scotts Trionized® formula to help fill-in and crowd out new weeds.

Note to PM:

EPA Reg. No. 538-18

Bold, italicized text is information for the reader and is not part of the label.

[Bracketed information is optional.] Text separated by / denotes and/or options.

Scotts Bonus S provides even greening. Each particle of Scotts Bonus S contains nitrogen, phosphorus and potassium. This means that each grass plant receives the feeding it needs so your lawn will grow uniformly thick and green.

Scotts Bonus S stimulates steady grass growth. Typical all-soluble fertilizers can cause surge growth. When you mow grass that has grown too fast and too tall, you weaken the grass plant by “scalping.” With Scotts Bonus S you have less mowing and less chance of scalping when you mow.

Scotts & Your Environment [art]

We care. Scotts products are designed with care to grow thicker, greener lawns.

A Green Lawn Is A Good Lawn. A healthy lawn can clean the air, produce oxygen and prevent runoff and soil erosion.

You can make a difference. Help keep our water resources clean. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk or street back on to your lawn.

Get expert advice for your lawn now.

Want information on what to use and when? Sign up today to get free expert advice specifically for your lawn.

Scotts Bonus S provides up to 2 months of greening. The nitrogen in Scotts Bonus S is time-released to help your lawn grow thick and green for up to 2 months.

Coverage

Treats and fertilizes X,XXX sq. ft.

How much is enough?

To determine the square footage of your lawn, walk the length and width of your lawn; one average pace equals about 3 feet. Multiply the length of the lawn by the width of the lawn. This equals the area of your lawn in measure square areas, then add the figures together to reach your total lawn size.

2-MONTH PERIOD

(ILLUS.)

STEADY GROWTH

Scotts Bonus S

A well-maintained lawn provides environmental benefits as well as an attractive and pleasant setting for your home. Healthy grass takes carbon dioxide and pollutants from the air while creating oxygen; it traps dust and prevents erosion; and it reduces the heat, noise, and glare of modern urban areas while providing a safer recreation area.

The timed-release nitrogen in Scotts Bonus S weed-and-feed is designed to be absorbed by the grass plants slowly and steadily, to build thick turf that helps prevent runoff and leaching into groundwater.

SEASONAL PRODUCT APPLICATION OPTIONS

Optional Product Program Information

[[Scotts] Recommended Annual Feeding/Lawn Care Program]

[Plan your feeding schedule. Chose the right product for your lawn.]

Plan your feeding routine with Scotts Turf Builder Lawn food.

[icon] [Spring]

[A spring feeding helps grass get going after its initial green up. You should feed around the third time you mow your grass.]

[icon][late spring]

[Feeding now prepares grass for summer by making more blades on top and building deep roots below.]

[icon] [summer]

[A summer feeding provides grass the nutrients they need to thrive during the summer months.]

[icon][early fall]

[Feeding now helps grass store nutrients to deal with the stress of the winter months.]

SCOTTS ADVANTAGE® PARTICLE TECHNOLOGY

The Scotts Difference®

Perfect Particle™ Technology

(art: particle with NPK)

Every particle of Scotts Bonus S® contains Scotts patented timed-release nitrogen plus phosphorus, potassium, and weed control (see back for details).

The Scotts Difference®

Scotts patented Perfect Particle™ Technology is available only in Scotts® products.

Uniform proportions of the major nutrients – timed-release nitrogen plus phosphorus and potassium – and weed control are bonded together in every Bonus S particle, so that they are distributed evenly across the entire lawn, eliminating hit-or-miss feeding and weeding. And the time-released nitrogen feeds your lawn without burning, and steadily for up to 2 months. Because of Scotts' patented time-released nitrogen, you won't get the rapid surge growth. With regular mowing, you will have fewer clippings and may not even have to bag your clippings.

With Scotts Bonus S you can be assured that every particle contains time-released nitrogen, plus the other primary nutrients and weed control.

(photo: SBS particles)

All-in-One Particles®

- Scotts Bonus S granules are consistent in size and shape
- This gives consistent distribution of particles – and nutrients and weed control – throughout the lawn

(photo: SBS pattern)

All-in-One Particles®

- Scotts Bonus S particles deliver the same ratio of nitrogen, phosphorus, and potassium (plus weed control) to every treated square inch of turf
- Result: even, consistent greening and thickening of your lawn, plus better weed control

-OR-

The Scotts Advantage®: All-in-One Particles®*

Your lawn requires essential nutrients to thrive. Every Scotts Bonus S® particle contains nitrogen, phosphorus, potassium, and weed killer, allowing Scotts to evenly disperse the appropriate ration of nutrients and weed control to your whole lawn. Only Scotts All-in-One® particles provide consistent feeding to every square inch of turf for a green, thick, strong lawn.

- No filler
- All Food and Weed Fighting Power

Note to PM:
