OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

SUBJECT: Label Amendment Submission of 01/31/94 in Response to PR Notice 93-7
EPA Reg. No. 538-26
SCOTTS PROTURF WEEDGRASS REVENTER

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 once the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

As required by section 6(f)(1) of FIFRA, (Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements), the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. and The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

Directions for use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Controls these grassy weeds as they sprout, without harm to desirable turf:

barnyardgrass
crabgrass

green foxtail
yellow foxtail
Poa annua

For use on established turfgrass, dichondra and putting greens.

For most effective control of Poa annua (annual bluegrass), apply in late Summer or early Fall before germination and repeat yearly.

To control other grassy weeds listed above, apply in the Fall, Winter or Spring prior to germination.

Turf may be either moist or dry.

Precautions

Do not use on putting greens composed of about 50% or more of Poa annua.

On newly planted areas, wait until the grass has been mowed at least twice and has made good coverage. On newly planted dichondra no waiting is necessary.

Where bermudagrass has been thinned out 25% or more by Winter damage, diseases, or insects, withhold application until desired filling-in and rooting is achieved.

After application, avoid any severe aeration or raking which might disturb the surface and break the chemical barrier.

Delay seeding, sprigging or sodding for four growing months after application.
Applications should not exceed twice yearly.

Storage and disposal:

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Suggested Spreader Settings

To provide proper distribution calibrate spreader before application.

37.00 lbs. treats 11,000 ft² (1/4 acre) at the NORMAL RATE

<u>SPREADER</u>	<u>GROUND OR PTO SPEED</u>	<u>WIDTH OF COVERAGE</u>	<u>SPREADER SETTING NORMAL RATE</u>
Scotts Drop	3 mph	Overlap wheels	6
Scotts Rotaries			
R-7*, R-7X*			
PT-10*, PT-11*	3 mph	8 feet	G
R-8 (cone 8)	3 mph	9 feet	M
Lely Models			
(see below)	4.5 mph	16 feet	5 II

Lely models WTR, WFR, HR and 1250. PTO at 450 rpm.

Metric coverage: 16.78 kg treats 1022 m² at the NORMAL RATE.

LIMITATION OF LIABILITY

It must be understood that this product has not been evaluated on all varieties under all possible growing conditions. The user should exercise judgment and caution when using this product on a given variety until familiar with the performance under his growing conditions. NO WARRANTY OR REPRESENTATION IS MADE, EXPRESS OR IMPLIED, CONCERNING THE RESULTS OBTAINED FROM THE USE OF THIS PRODUCT ON BENTGRASS AND POA ANNUA IF NOT USED IN ACCORDANCE WITH DIRECTIONS AND ESTABLISHED SAFE PRACTICES. The exclusive remedy of the user or Buyer, and the limit of liability of The O M Scott & Sons Company or any other Seller, for any and all losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user or Buyer for the quantity of this product involved. The Buyer and all users are deemed to have accepted the terms of this Notice, which may be varied only by agreement in writing signed by a duly authorized representative of The O M Scott & Sons Company.
