weed control plus lawn fertilizer

Advantages of Turf Builder plus 2(R)

SUPERIOR QUALITY

All lightweight granules mean better weed control. Most lawn weed controls must be absorbed through the weed's leaves to be effective. Turf Builder Plus 2(R) granules are small and lightweight so they will stay on even the smallest weed leaves. And each Turf Builder Plus 2(R) granule contains weed control and America's favorite fertilizer.

Scotts Trionized II™ formula provides a more efficient nitrogen which keeps a constant supply of this essential nutrient available to your lawn. This means Turf Builder Plus 2(R) feeds your lawn as it needs to be fed, much better than other fertilizers.

Turf Builder Plus 2(R) provides up to 2 months of greening. The buffered nitrogen is time released to keep your lawn thick and green for up to two full months.

Each Turf Builder Plus 2(R) granule is a complete fertilizer and weed control. We bond Scotts unique controlled-released Nitrogen with other essential nutrients and a weed control. So your lawn receives a safe balanced feeding, and effective weed control.

(ILLUS)

Turf Builder Plus 2(R) every granule is a complete fertilizer.

Provides safe, even greening with superior weed control.

(ILLUS)

Simple Mixture Each granule is a separate chemical.

May cause surge growth, burning uneven greening and/or reduced weed control.

WEEDS CONTROLLED

aster	fleabane	plaintain
black medic	ground ivy	prickly lettuce

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Application

• Apply when weeds are actively growing, but not before yellow dandelion blooms have appeared.

• Apply on a calm day.

Apply to moist grass. To help particles stick to weed leaves the grass should be thoroughly watered or wet from dew before applying Turf Builder Plus 2(R).

Watering or Rain

Please do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product.

This product should not be applied if rain is expected within the next 24 hours.

Spreader

Please be careful when applying this product near shrubs, flower beds or vegetable gardens as contact with weed control may damage these desirable plants. The Scotts PF spreaders provide excellent controlled application to protect these areas.

Feeding Rate Scotts PF, Standard or Automatic

Easy To Apply

IMPORTANT

WHAT TO EXPECT

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for complete control.

This product will not prevent weed seeds from producing new plants.

Desirable Plants.

Please do not use this product on flowers, shrubs, fruit or vegetable plants or on creeping bentgrass lawns.

Extreme Temperatures.

Avoid applying when temperatures are consistently above 90 degrees.

Seeding /Sodding

Wait until the new grass has been mowed at least four times before applying Turf Builder Plus 2 weed control.

If you are planning to seed, you should wait at least one month after you have applied Turf Builder Plus 2(R).

TIPS ON SPREADING WITH SCOTT'S DROP SPREADER

- First apply 2 header strips.
- Operate spreader the longest way of the lawn.
- Overlap wheels to insure uniform feeding.
- Shut off spreader when you have reached the header strips or stopped.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

Michael P. Kelty, Ph.D.
O. M. Scott and Sons Company
Marysville, OH 43041

Dear Mr. Kelty:

Subject: Amendments: Range of Active Ingredients Content
and Label Revision
Turf Builder Plus 2
EPA Registration No. 538-28
Your Submission of April 21, 1983 and October 27, 1983

NOV 3 1983

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable, provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

a. Delete "superior" and "toughest." These terms are misleading.

b. Delete "Please" before "be careful" and "do not use."

We are assuming that you have data on file with your company to support the claim:

Small lightweight granules mean better weed control

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Richard P. Mountfort *RFM*
Product Manager (23)
Fungicide-Herbicide Branch
Registration Division (TS-767)
