LAWN PRO

Available only at authorized
Scotts Lawn Pro dealers

Eliminates dandelions and more than 50 other broadleaf weeds after they sprout and helps make your lawn its thickest, greenest ever.

XX% more greening power than Brand X (Turf Builder Plus 2).

Eliminates dandelions, clover, chickweed and other non-grassy weeds while greening your lawn without rapid, extreme growth.

Small, lightweight granules provide complete uniform coverage and are quickly absorbed to help insure control of large and small weeds.

Weeds are killed completely — roots and all.

Formulated for the home environment.
Net Weight X X/XX LBS

KEEP OUT OF REACH OF CHILDREN
CAUTION
PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION, causes eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. If in eyes: Flush with plenty of water. Get medical attention if irritation persists. Harmful if swallowed. Do not contaminate feed or foodstuffs. Do not contaminate water used for irrigation or domestic purposes. Do not graze treated areas. Do not feed clippings to livestock. Wear long pants, long-sleeved shirt and shoes when applying this product. Do not reenter or permit others to reenter treated areas until dusts have settled.

Environmental Hazards: Do not apply when weather conditions favor drift from target areas. Drift or runoff may adversely affect non-target plants. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Do not contaminate water when disposing of equipment washwaters.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag (container). Discard bag in trash. (Rinse thoroughly before discarding in trash).

weed control Plus lawn fertilizer

Advantages of Turf Builder Plus 2(R)

LEFT COLUMN

SUPERIOR QUALITY

SMALL LIGHTWEIGHT GRANULES MEAN BETTER WEED CONTROL. Most lawn weed controls must be absorbed through the weed's leaves to be effective. Turf Builder Plus 2(R) granules are small and lightweight so they will stay on even the smallest weed leaves. And each Turf Builder Plus 2 granule contains weed control and America's favorite lawn fertilizer.

SCOTTS TRIONIZED R II FORMULA PROVIDES A MORE EFFICIENT NITROGEN THAN EVER BEFORE to help promote quicker greening.

THE NITROGEN IN TURF BUILDER PLUS 2(R) IS TIME-RELEASED to provide a supply of this essential nutrient to help your lawn stay thick and green for up to 6 to 8 weeks.

EACH TURF BUILDER PLUS 2 R GRANULE CONTAINS NPK AND WEED CONTROL. We bond Scotts unique controlled-release nitrogen (N) with phosphorous (P) and potassium (K) and a weed control, so your lawn receives a safe even feeding, and effective weed control.

(ILLUS.)

Scotts

BACK CONTINUED:

(Optional Back Panel Claims)

Eliminates dandelions and more than 50 other broadleaf weeds after they sprout and helps make your lawn its thickest, greenest ever.

What to expect: Dandelions and other weeds will be eliminated in 3 to 4 weeks and your lawn will be greener in 4 to 6 days.

Weed control in Turf Builder Plus 2 is absorbed by weed leaves killing the plant completely — root and all.

Super Turf Builder_g lawn fertilizer contains extra nitrogen, carefully blended with potassium and phosphorus, to make your lawn greener.

- o Your lawn will be greener in 4 to 6 days if weather conditions are good (warm soil, some moisture) and application instructions were followed.
- o The greening will reach its peak 8 to 10 days after application. The color difference will be more noticeable if your lawn is hungry to begin with.
- o Super Turf Builder works below the soil, too, helping to promote root and rhizome development; this strengthens the grass plants and enables them to produce more blades of grass, and it thickens the lawn with the addition of new grass plants.
- o Thin areas of turf will fill in over time (about 6 weeks), creating a more uniformly dense lawn.

(Optional Info on Lawn Sizing/Application Seasons)

Coverage Treats (and fertilizes) X,XXX sq ft

How much is enough?

To determine the square footage of your lawn, walk the length and width of your lawn; one average pace equals about 3 feet. Multiply the length of the lawn by the width of the lawn. This equals the area of your lawn in square feet. NOTE: If your lawn has an irregular shape, measure square areas, then add the figures together to reach your total lawn size.

How and when to apply Apply in late spring, summer, or fall.

Scotts Best
Annual
Program

Now it's easy for you to have a better lawn

Save money

Why even consider a lawn care service? Scotts Annual Program will give you a beautiful lawn for less money.

Start anytime

You can start into the Annual Program anytime of the year. Just check the month and select the appropriate Step listed below.

Simple and easy

No more guesswork. You simply apply the right product - one Step at a time.

Guaranteed results

Each Step is designed to the specific season to help give you a healthier, greener lawn.

(ILLUS.)

(The 4 Steps listed below will be placed horizontally in one row.)

step 1. Early Spring February-April

Crabgrass Preventer plus Fertilizer - prevents crabgrass foxtail, spurge, oxalis, chickweed and other annual weeds while providing deep, thick greening for up to 2 months. This is Scotts best fertilizer plus crabgrass preventer. in the Pacific Northwest, Step 1 is "Moss Control plus Fertilizer".

step 2. Late Spring April-June

Weed Control Plus Fertilizer - controls dandelions, clover, chickweed and other broadleaf weeds while greening your lawn for up to 2 more months. This is Scotts best weed and feed.

step 3. Summer June-August

Insect Control plus Fertilizer - controls white grubs, chinch bugs, sod webworms and other lawn insects plus keeps your lawn green through the Summer.

step 4. Fall August-November

Lawn Fertilizer - specially formulated for the Fall - the best time to develop a stronger root system for a healthier, thicker lawn. Helps your lawn green up even quicker next Spring. This is Scotts best fall fertilizer.

Easy To Apply

Turf Builder Plus 2 — DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

APPLICATION

- . Apply anytime weeds are actively growing (when daytime temperatures are consistently above 60°F). Avoid applying when temperatures are consistently above 90°F.
- . Apply on a calm day.
- . Apply to moist grass. To help particles stick to weed leaves the grass should be thoroughly watered or wet from dew before applying Turf Builder Plus 2(R).
- . On bahia and centipede lawns wait until after the second mowing of the year but NOT before mid-March. In the fall DO NOT treat centipede after the first of October and DO NOT treat bahia after the first of November.
- . Do not use this product on flowers, shrubs, fruit or vegetable plants or on creeping bentgrass, St. Augustine, dichondra or lippia lawns. On bermudagrass, bahia, centipede and zoysiagrass lawns, under certain conditions, some temporary discoloration may result.

WATERING OR RAIN

Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product.

This product should not be applied if rain is expected within the next 24 hours.

IMPORTANT

WHAT TO EXPECT

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for complete control.

This product will not prevent weed seeds from producing new plants.

EXTREME TEMPERATURES

Avoid applying when temperatures are consistently above 90 degrees.

BACK CONTINUED:

SEEDING/SODDING/SPRIGGING

Wait until the new grass has been mowed at least four times before applying Turf Builder Plus 2.

If you are planning to seed, sod or sprig, you should wait at least one month after you have applied Turf Builder Plus 2.

SPREADER (or Spreading Tips For best results, use a Scotts Spreader (chart))

Be careful when applying this product near shrubs, flower beds or vegetable gardens as contact with weed control may damage these desirable plants. The Scotts PF Drop Spreaders provide excellent controlled application to protect these areas. When using the EasyGreen™ or SpeedyGreen™ Rotary Spreader take special care near desirable plants.

Spreader Settings	Scotts Drop Spreaders	Scotts EasyGreen™ Rotary	Scotts SpeedyGreen™ Rotary
(treats X,XXX sq ft)	X	XX	XX

Additional Spreader Settings

Cyclone Rotary	XX	Ortho Drop	X
Central Drop	XX	Green View Drop	X
Sears Drop	XX	Precision Drop	X

(Non-Scotts spreader settings are approximate. You may need to adjust for proper coverage.)

TIPS ON SPREADING WITH SCOTTS SPREADERS

Scotts Drop:

- First apply 2 header strips
- Operate spreader the longest way of the lawn (ILLUS.)
- Overlap wheels to insure uniform feeding
- Shut off spreader when you have reached the header strips or stopped (ILLUS.)
- Mow lawn first if grass is tall enough to touch the bottom of spreader

BEST AVAILABLE COPY

EasyGreen™ Rotary:

- Slide shut-off lever to the right. Application automatically starts and stops when you do
- For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs

SpeedyGreen™ Rotary:

- Shut-off spreader anytime you stop.
- For complete coverage make each pass about 5 feet from the previous one so some overlapping occurs.
- Avoid applying product in flower beds adjacent to lawns

(Optional Spreader Instructions)

Scotts Drop: Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Then operate spreader the longest way of the lawn. Overlap wheel marks to insure uniform feeding. Shut off spreader when you have reached the header strips or stopped.

(ILLUS)

Scotts EasyGreen™ Rotary: Slide shut-off lever to the right; application automatically starts and stops when you do. For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs.

(ILLUS.)

Scotts SpeedyGreen™ Rotary: Shut off spreader anytime your stop. For complete coverage make each pass about 5 feet from the previous one, so some overlapping occurs. Avoid applying this product on flowers, vegetables and shrub plantings.

OPTIONAL DIRECTIONS FOR USE — step 2

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

LEFT COLUMN

Application

- . Apply to moist foliage when weeds are actively growing, but not before yellow dandelion blooms have appeared.
- . Apply to moist or dry foliage, however, for best results, apply to moist foliage.
- . Be careful when applying this product near shrubs, flower beds or vegetable gardens as weed control may damage these desirable plants.
- . Do not over apply, especially under the drip zone of desirable shrubs and trees
- . Don't use on dichondra, St. Augustine, creeping bentgrass, bahia, or centipedegrass lawns or on newly seeded or sodded lawns until after the fourth mowing. Don't plant grass for one month after using this product and don't apply when daytime temperatures are consistently 90 degrees or above.
- . Allow at least 4-6 weeks between program applications.

Watering or Rain

- . Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product. This product should not be applied if rain is expected within the next 24 hours.

Tips on Spreading

Scotts Drop:

- . Do not apply during windy days.
- . First apply 2 header strips. (ILLUS.) (ILLUS.)
- . Overlap spreader application area to avoid strips of untreated lawn.
- . Shut off spreader when you reach the header strip or any time you stop.

BACK CONTINUED:

EasyGreen™ Rotary:

- Slide shut-off lever to the right, application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs
