Subject: TURF BUILDER PLUS 2
EPA Reg. No. 538-28

NOTIFICATION : minor label changes

Gentlemen:

Attached are two (2) copies of Final Printed Labels for Turf Builder with Plus 2 Weed Control. We are NOTIFYING the Agency under 40 CFR 152.46 of the following label changes that have been made to the attached labels:

- a) We have revised the following fertilizer claims to appear as bullets on the label:
 - “We guarantee thick, green, weed-free turf without the risk of burning or surge growth”
 - “Unlike ordinary weed-and-feeds, every particle of this product contains Scotts patented timed-release nitrogen plus phosphorus, potassium, and weed control.”
 - “Now it’s easy for you to have a better lawn.” “You simply apply the right product - one step at a time...”

to read

- Builds thick, green turf from the roots up without burning your lawn
- Patented formula kills weeds that ordinary weed & feeds miss
- For best results, apply a Turf Builder® product four times a year (see back for details)

- b) We have added a web site address for customer information:
“Lawn Success made easy” Visit Scotts’ website at www.scottslawn.com

- c) We have added reference to and application timing for the Scotts annual program. This is similar to the reference to the Scotts Four Step program that currently appears on the approved master label. The product names and product references have been changed to reflect the Turf Builder annual program (see attached label)

e) We have revised the following fertilizer claims:

Scotts Turf Builder Plus 2: Every granule contains NPK and weed control. Provides uniform greening and weed control.

Ordinary Simple Mixes: Individual nutrient and weed control granules of many different sizes and shapes can result in uneven, inconsistent weeding and feeding.

To read

Scotts Turf Builder With Plus 2 Weed Control: Turf Builder With Plus 2 Weed Control particles deliver the same ratio of nitrogen, phosphorus, potassium and weed control to every square inch of turf for even, consistent feeding plus better weed control.

Ordinary Mixed Weed & Feeds: Granules contain different nutrients. Nutrient and weed control granules of different sizes and shapes can separate during application resulting in uneven, inconsistent feeding and weeding.

I have highlighted the above changes on the attached label to facilitate your review.
If you have any question concerning this NOTIFICATION please contact me at (937) 644-7214.

Respectfully,
THE SCOTTS COMPANY

FEEDS AND TREATS 5

FOR BEST RESULTS, APPLY THE

TURF BUILDER Annual Program

- No more guesswork... apply the right product at the right time for a thick, green, weed-free lawn.
- Start anytime... just check the month below and apply products at 2 month intervals.

Turf Builder® With Hales® Crabgrass Preventer	
<ul style="list-style-type: none"> Apply in early spring (Feb-April) Prevents crabgrass and other annual weeds while feeding your lawn. In the Pacific Northwest, substitute Turf Builder and Moss Control Granules. For St. Augustine grass, substitute Bonus N. For dormant bermudagrass, substitute Hales. 	<ul style="list-style-type: none"> Apply in late spring (April-June) Kills dandelions and other broadleaf weeds while feeding your lawn. (For St. Augustinegrass, substitute Turf Builder.)
Turf Builder® With Insect Control	Turf Builder®
<ul style="list-style-type: none"> Apply in summer (June-Aug.) Kills lawn damaging weevils plus fleas while feeding your lawn. For grub control, apply Scott's® GrubEx® anytime from April to mid-August. 	<ul style="list-style-type: none"> Apply in fall (Aug-Nov.) Important time to feed for a thicker, greener lawn.

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals: CAUTION, causes eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. If in eyes, flush with plenty of water. Get medical attention if irritation persists. Harmful if swallowed. Do not contaminate feed or foodstuffs. Do not contaminate water used for irrigation or domestic purposes. Do not graze treated areas. Do not feed droppings to livestock.
 Do not allow people (other than the applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried or dust has settled. When using this product, wear long-sleeved shirt, long pants, socks and shoes. After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water.
Environmental Hazards: Do not apply when weather conditions favor drift from target area. Drift or runoff may severely affect non-target plants. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

Turf Builder With Plus 2 Weed Control 28-3-3 64-5-20-2

Guaranteed Analysis

Total nitrogen (N)	28%
0.5% ammoniacal nitrogen	
15.1% urea nitrogen	
11.9% water soluble organic nitrogen	
0.5% water insoluble nitrogen	
Available phosphorus (P2O5)	3%
Soluble potash (K2O)	3%

Derived from: monoammonium phosphate, urea, methylene ureas, and murate of potash
 Chlorine, not more than 3%
 Contains 8.4% slowly available methylene diurea and dimethylammonium nitrate

U.S. Patent No. 4,378,238
 Product of U.S.A.

How and when to apply
Apply in late spring, summer, or fall.

IMPORTANT:
This product will not prevent weed seeds from producing new plants.

Seeding/soiling/sprigging
Do not seed, soil, or sprig for at least 4 weeks after application.

What to expect
Weed stems and leaves will begin to die and fall in a few days. For a month or more may be required for complete control.

STORAGE: Store in a clean, dry place. Recalibrated but in good top down and bottom.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

Spreading tips:
For best results, use a Scott's spreader. Be careful when applying this product near shrubs, flowers, beds, or vegetable gardens as contact with weed control may damage these desirable plants. When using EcoGreen or SpeedyGreen rotary spreader, take special care near desirable plants.

Spreader Settings	covers 5,000 sq. ft.	DISPOSABLE
Scott's Drop Spreader	4 3/4	Make two passes over each area. Apply in two directions at least one perpendicular to the other.
Scott's EcoGreen [®] Rotary	26	Make each pass about 40 inches from previous pass to overlap spread width.
Scott's SpeedyGreen [®] Rotary	4	Make each pass about 4 feet from previous pass to overlap spread width.

Additional Spreader Settings

EZ Drop Spreader (EPA Reg. No. 538-28)	4 3/4
Quaker Drop Spreader (EPA Reg. No. 538-28)	6 1/2
Red Devil Drop Spreader (EPA Reg. No. 538-28)	1/2

What to expect:
Dandelions and other weeds will be killed in 3 to 4 weeks and your lawn will be greener in 3 to 6 days.

Small, light-colored granules mean better weed control. Most lawn weed control is absorbed through the weeds' leaves so be effective. Turf Builder With Plus 2 Weed Control granules are small and lightweight, so they will stay on even the smallest weed leaves. Weed control on Turf Builder With Plus 2 Weed Control is absorbed by the weeds' leaves. Administer the plant completely, as is and as weeds are killed by Turf Builder With Plus 2 Weed Control.
