

How to apply

Use Scotts Spreader setting 9½

(With E-Z Spred open large holes and go over area twice.)

Overlap spreader wheel
tracks slightly so no strips
are missed. Shut off
spreader as you stop or
turn around. (spreader
photo)

Water in after application.

The photo below shows the approximate particle distribution to strive for if you are using any spreader other than Scotts.

(photo)

What to expect

In lawns containing both dichondra and grass, elimination of the grass may leave thin or bare spots. These can be seeded with dichondra without delay because TURFBUILDER plus 3 is completely compatible with seeding.

Precautions

Do not use on grass lawns, flowers, shrubs, ground covers, fruit or vegetable plants.

Guaranteed to satisfy

Scotts, in its 99th year, continues to guaranteed
satisfaction or your money back.
