broad spectrum weedicide II

patented *TRIONIZED* bonding ensures sustained action

USE THIS SCOTTS SPREADER SETTING TO ENSURE PROPER DISTRIBUTION

Apply at rate of 22,000 sq ft

Slightly overlap spreader when tracks to provide complete coverage

WEEDS CONTROLLED:

black medic	English daisy	pepperweed
buckhorn	filaree	ragweed
carrot-weed	ground-rye	plantain
chickweeds	heat-all	poa-stain
crabweed	henbit	ragweed
daisy fleabane	kentweed	shepherd's purse
dandelion	seedling	white clover
dot weed	squabquarters	yellow rattle

FOR USE ON TURFGRASS AREAS OTHER THAN PUTTING GREENS

Use when weeds are growing actively. Growth should not be so fast that it is beyond bottom of spreader. Apply to moist foliage. Repeat in one month if needed.

Do not sprinkle on wet or heavy traffic within 24 hours after application. Keep off weeds, especially after watering until at least one week.

PRECAUTIONS

Avoid application in windy conditions. Avoid application to new plantings; delay treatment until after the fourth mowing.

Avoid application when low time temperature conditions are below 50°F or below.

Delay planting grass seed, if after a heavy rain of water, to prevent erosion until 1 month after treatment.

Not for use on creeping bent, St. August, or other turf grasses that are highly sensitive to that product.
