CHINCHBUG CONTROL

538-69

controls chinchbugs
and other insects listed below:

ants earwigs sod webworms
brown dog ticks grasshoppers (lawn moth larvae)
crickets flea beetles vegetable weevils
cutworms (in dichondra) (in dichondra)
Hyperodes weevils

For use on grass or dichondra lawns

A PROBLEM-SOLVING PRODUCT BY SCOTT'S, THE LAWN PEOPLE

How To Use:

- DO for chinchbugs (also ants, ticks, crickets and grasshoppers), apply at Scott's Spreader (Standard or Automatic Model) setting **7**. At this setting, contents will cover 2,500 sq ft of lawn. Use Kwit when temperatures reach 80° or above. Repeat treatment at two month intervals.
- DO for sod webworms, flea beetles, cutworms, vegetable weevils, and crickets, apply at Scott's Spreader (Standard or Automatic Model) setting **5 1/2**. At this setting, contents will cover 5,000 sq ft of lawn. Repeat as needed.
- DO for Hyperodes weevils, apply at Scott's Spreader (Standard or Automatic Model) setting **8 1/2**. At this setting, contents will cover 1,875 sq ft of lawn. Use Kwit as soon as grass greens in spring. Repeat in one month.
- DO overlap sprower wheel (tracks or no strips are mixed).
- DO when treating for chinchbugs, water lawn thoroughly after application.
- DO when treating for all other insects listed above, sprinkle lightly after application to remove particles from foliage.
- DO NOT spot treat only damaged areas — apply over entire lawn area to provide complete protection.
- DO NOT use when grass is wet and so tall it touches bottom of sprower (let lawn dry, or mow, before making application).
- DO NOT mow for 24 hours after application.
- DO NOT allow children or pets on lawn area until grass has dried off (after watering in).
- DO NOT use any other control product (such as weed control) for one week after application.
