 with Crabgrass Preventer

Scotts Fertilizer with Crabgrass Preventer

FOR USE WHEN PLANTING GRASS SEED
 If you are not seeding,
 use Turf Builder Plus Halts instead of this product

prevents crabgrass -
 also barnyardgrass and foxtail
 gives full feeding of Scotts Starter Fertilizer -
 to hastens sturdy growth of new grass plants

NET WEIGHT 22 LBS (Treats 5,000 sq ft) **16-21-5**

CAUTION: KEEP OUT OF REACH OF CHILDREN
 May irritate eyes, nose, throat and skin. Avoid contact with skin, eyes and clothing. Do not contaminate food or foodstuffs or water used for irrigation or domestic purposes. Do not reuse container. Destroy when empty.
 This product is toxic to fish. Do not apply where runoff is likely to occur. Do not contaminate lakes, streams, ponds by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.
 Active ingredient: Siduron 1-(2-methylcyclohexyl)-3-phenylurea 3.10%
 Inert ingredients: 96.90%
 U.S. Composition Patent No 3,076,699 Total 100.00%
 EPA Reg No 538-60 EPA Est 538-OH-1 Product of USA
 Net Weight 22 lbs Starter Fertilizer with Crabgrass Preventer 16-21-5 guaranteed analysis*
 Total nitrogen (N) 16%
 4.9% ammoniacal nitrogen from ammoniated phosphate
 7.4% water soluble nitrogen from urea and methylene ureas
 3.7% water insoluble nitrogen from methylene ureas
 Available phosphoric acid (P₂O₅) from ammoniated phosphate 21%
 Soluble potash (K₂O) from muriate of potash 5%
 Potential acidity equivalent to 600 lbs calcium carbonate per ton
 *In Michigan reads "minimum guaranteed analysis"

Tractor	4-6 gpm	48 inches	4-6

For spring and summer use

When seeding bare ground. Apply just after planting grass seed in April, May or early June.

When seeding into thin turfgrass areas. Apply just after planting grass seed sometime between the first and fifth mowings of the year (before most dandelions are in the puffball stage). Make a followup treatment in 4 to 6 weeks.

After application water with a gentle spray to thoroughly moisten soil without flooding it.

Does not control dandelions, crabgrass or other weeds already established and growing at time of application.

Precautions

Can be used on only the following varieties of turfgrass: Pennycross, Seaside Astoria, Nemesa, C-1, C-2 and C-19. Other varieties may be adversely affected.

Not for use on bermudagrass, zoysiagrass or warm-season grasses. Do not apply to plants or soil near waterways, streams, ponds, lakes, or other bodies of water.
