

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

MAY 30 1990

OFFICE OF  
PESTICIDES AND TOXIC SUBSTANCES

Mr. Vincent Snyder, Jr.  
The O. M. Scott & Sons Company  
14111 Scottslawn Road  
Marysville, Ohio 43041

Dear Mr. Snyder:

Subject: Label Amendment per 2,4-D and MCPP Standards  
Super Turfbuilder Plus 2 for Grass  
EPA Registration Number 538-72  
Crabgrass Preventer & Dandelion Control & Fertilizer  
EPA Registration Number 538-77  
Scotts Lawn Pro Weed and Feed  
EPA Registration Number 538-215  
Private Label Weed & Feed  
EPA Registration Number 538-220  
Private Label Feed & Weed  
EPA Registration Number 538-236  
Your Submission Dated October 16, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you add the following:

1. Homeowner Reentry Statement: "Do not reenter or permit others to reenter treated areas until sprays have dried or dusts have settled."
2. Cleaning of Equipment Statement: "When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources."

47505C  
Robbins  
5/30/90

[2]

Please also note that there was a typo in the standard and under the Environmental Hazards it should read, "...Do not contaminate water when disposing of equipment washwaters."

A stamped copy of each label is enclosed for your files.

Sincerely yours,

Joanne I. Miller  
Acting Product Manager (23)  
Fungicide-Herbicide Branch  
Registration Division (H7505C)

(Scotts (R))

Crabgrass Preventer  
and Dandelion Control  
Plus Fertilizer

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

533-77

FOR ESTABLISHED LAWNS ONLY. DO NOT USE IF PLANTING GRASS SEED

Prevents crabgrass — also barnyardgrass and foxtail

Controls dandelions and other weeds — see list on other side

Gives full feeding of Turf Builder — America's favorite  
fertilizer for developing thick, green lawns

Apply in the spring or in the fall

A SCOTTS(R) Lawn Pro(R) PRODUCT

Available only at authorized Lawn Pro stores

NET WEIGHT 22 1/2 LBS (10.21 kg)

20-6-6

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION, avoid contact with skin, eyes, or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash thoroughly with soap and water after handling. May be harmful if swallowed. Avoid inhalation. Do not contaminate feed or foodstuffs. Wear long pants and a long-sleeved shirt when loading spreader and applying product.

Environmental Hazards: Do not apply when weather conditions favor drift from target areas. Drift or runoff may adversely affect non-target plants. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Do not contaminate washwaters.

Phenoxy herbicides such as MCPP generally will not reach groundwater from use as specified on product labels. To prevent contamination of water supplies, caution should be exercised when handling MCPP pesticides at mixing, loading, and disposal sites.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

ACTIVE INGREDIENTS:

S-(O,O-Diisopropyl phosphorodithioate) ester of	
N-(2-mercaptoethyl)benzenesulfonamide . . . . .	5.10%
2,4-Dichlorophenoxyacetic acid. . . . .	0.76%
2-(Methyl-4-chlorophenoxy) propionic acid . . . . .	0.76%
INERT INGREDIENTS: . . . . .	93.38%
Total	100.00%

chickweed	healall	plantain	vetch
chicory	henbit	prickly lettuce	yellow rocket
cinquefoil	horsweed	puncturevine	
clover (white)	knotweed	purslane	
cudweed	(seedling)	ragweed	
curly dock	lambquarters		

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DO apply in spring (between second and fifth mowing) at regular rate to prevent crabgrass and to control actively growing weeds (listed above). Apply at Scotts Spreader (Standard, Automatic or Precision Flow Control Model) setting . . . . . 6 3/4 (Treats 5,000 sq ft) In Colorado apply at setting 7 (treats 4,500 sq ft)

DO apply in fall (September–October) or in the spring (between the second and fifth mowing) at heavy rate to prevent barnyardgrass and foxtail in addition to crabgrass. The heavy rate application also controls actively growing weeds (listed above).

Apply at Scotts Spreader (Standard, Automatic or Precision Flow Control Model) setting . . . . . 7 1/2 (Treats 4,000 sq ft)

- DO slightly overlap spreader wheel tracks for complete coverage.
- DO apply only when lawn is wet from dew, rain or thorough watering (very important so that the particles will stick to the weed leaves instead of falling to the soil).
- DO withhold watering lawn for at least 24 hours after application (to avoid washing particles off the weed leaves).
- DO apply on a calm day.
  
- DON'T use on lawn of creeping bentgrass, carpetgrass, St. Augustinegrass, dichondra or improved varieties of bermudagrass.
- DON'T apply on newly seeded or sodded areas until the grass has received its fourth mowing.
- DON'T seed or sod for 4 growing months after application.
- DON'T apply to shrubs, flowers, fruit or vegetable plants.
- DON'T make application at less than four month intervals.
- DON'T rake or aerify after application to avoid disturbing the crabgrass prevention barrier in the soil.
- DON'T use this product to control crabgrass or other wild grasses already up and growing. Scotts recommends SUMMER CRABGRASS CONTROL to control actively growing crabgrass.
- DON'T expect control of dandelions overnight. A month of good growing weather may be required for complete control.
