to ensure proper distribution

166 LBS AT NORMAL RATE TREATS 11,000 SQ FT

SPREADER	SPRINKLING RATE (LBS PER 1000 SQ FT)	WIDTH OF COVERAGE	SPREADER SPEED (MPH)
Scotts (Drop Type)	3	overlap wheels	3
Scotts Rotary	3	7 feet	3
Lely WTR Model	4.5	16 feet	5.0
Lely HR	4.5	16 feet	5.0
(PTO Model)	4.5	16 feet	5.0
Gandy (6 ft)	4.5	overlap wheels	2.2

**When to use**

For control of insect damage apply when activity is first observed or when brown or brown grass indicates damage from these insects. Repeat at signs of renewed insect activity.  
For grub control make an application anytime between late July and early October.

**How to apply**

Apply to dry foliage. Distribute over the entire lawn area. Water after application to remove granules from the grass blades.  
For grubbing, water sufficiently to carry material into the thatch layer of the turf.

For grub control water thoroughly to carry the material into the soil.

**Precautions**

As treated, water lawn after application and re-water treated area as needed.
