EPA Reg. No. 538-90  
ProTurf Insecticide  
EPA Reg. No. 538-91  
Lawn Insect Control Plus Fertilizer  
EPA Reg. No. 538-92  
ProTurf Insecticide One  
EPA Reg. No. 538-171  
Lawn Insect Control  
EPA Reg. No. 538-187  
New Western Lawn Insect Control  
EPA Reg. No. 538-204  
Your submissions dated November 5, 1986

On October 1, 1986, EPA published in the Federal Register a Notice of Intent to Cancel the registration of pesticide products containing diazinon registered for use on golf courses and sod farms (51 FR 35034). The Environmental Protection Agency has determined that you have complied with the requirements of that Notice in a timely manner for EPA Registration Numbers 538-80, 538-92, 538-171, 538-187, and 538-204 by submitting amended labeling deleting the use on golf courses and sod farms, by addition of the label statement: "This product must not be used on golf courses or sod farms". Please note that the statement must appear on top of the front panel of the label and should appear in a type size likely to be noticed by the consumer. It is understood that you have not made any other revision to the last accepted labeling for the subject products. Complete label reviews will be done when diazinon undergoes reregistration.

The amendments referred to above, submitted in connection with registrations under the Federal Insecticide Fungicide, and Rodenticide Act, are acceptable. Stamped copies of the amended labels are enclosed for your records. Please submit five (5) copies of each final printed amended label prior to release for shipment.

As indicated in the Notice of Amendment to Notice of Intent, any product released for shipment by the registrant after April 30, 1987, must bear the amended labeling. Any product sold or distributed by retailers or other persons after November 30, 1987, must bear the amended labeling.

Please note for EPA Registration Number 538-92, Lawn Insect Control Plus Fertilizer, that "Insect Control Plus Fertilizer" (the STEP 3 product) is only an additional brand name. Additional brand name labels need not be submitted to the Agency for approval. Note, however, that any required statements that have been accepted on the master product label (such as the statement required under the current Notice of Intent to Cancel) must also appear on all additional brand name labels.

Although you did address the remaining subject products in your November 25, 1986 submission, the Agency cannot accept the submitted labels because they do not bear the correct current product name. Revised labeling bearing the current name and the statement required under the Notice of Intent to Cancel must be submitted immediately for the following:

Insect Control for Lawns  
EPA Reg. No. 538-81

Lawn Insect Control II  
EPA Reg. No. 538-90

ProTurf Insecticide  
EPA Reg. No. 538-91

Sincerely yours,

George T. LaRocca  
Product Manager (15)

SUGGESTED SPREADER SETTINGS

Product	Rate (lb/1000 sq ft)	Spreader Setting
ProTurf	1.0	10
ProTurf	1.0	10
ProTurf	1.0	10
ProTurf	1.0	10
ProTurf	1.0	10

**WHEN TO USE**  
For control of insect damage apply when activity is observed or when chervil or brown grass indicates damage. Repeat at 10 day intervals if necessary.

**HOW TO APPLY**  
Apply to dry foliage. Broadcast over the entire lawn or other application to remove grubs from the ground. For grub control water thoroughly to carry the insecticide into the soil.

**PRECAUTIONS**  
As directed, water lawn after application and allow lawn penetrating use of treated area.

**STORAGE AND DISPOSAL**  
Do not contaminate water, food, or feed by storage or cleaning of equipment. Open dumping is prohibited. Containers that cannot be used should be disposed of according to local, state or federal regulations.

FOR PROFESSIONAL USE ONLY
