Scott's Lawn Insect Control plus Fertilizer

- ✓ controls lawn moth larvae (sod webworms), flea beetles, cutworms
 - chinchbugs, vegetable weevils, earwigs
 - ants, brown dog ticks, grasshoppers
 - crickets
- ✓ gives your lawn a feeding of Scotts long lasting fertilizer

For use on grass or dichondra lawns
A PROBLEM-SOLVING PRODUCT BY SCOTTS, THE LAWN PEOPLE

How To Use:

- DO use anytime activity or damage is noticed or suspected. Inspected any insect listed above.
- DO apply at Scotts Sprinkler (Standard or Automatic Model) setting: **5** when treating for flea beetles, sod webworms, vegetable weevils, earwigs and cutworms. At this setting, contents will treat 5,000 sq ft of lawn area.
- DO apply at Scotts Sprinkler (Standard or Automatic Model) setting: **7** when treating for chinchbugs, ants, ticks, crickets and grasshoppers. At this setting, contents will treat 2,500 sq ft of lawn area.
- DO overlap sprayer wheel tracks so no strips are missed.
- DO use no sooner than daily temperatures reach 80° or above, to prevent chinchbug damage. Repeat treatment at two-month intervals.
- DO water lawn thoroughly after application when treating for chinchbugs.
- DO sprinkle lawn lightly after application when treating for all other controllable insects, to remove particles from grass blades.
- DO NOT spot treat damaged areas only—apply over entire lawn area to provide complete protection.
- DO NOT use when grass is wet and so that it touches bottom of sprayer (let lawn dry before making application).
- DO NOT mow for 24 hours after application.
- DO NOT allow children or pets on lawn area until grass has dried off (after watering in).
- DO NOT use any other control product (such as weed control) for one week after application.
