A PROBLEM-SOLVING PRODUCT BY SCOTTS, THE LAWN PEOPLE

### How To Use

DO use as soon as daily temperatures reach 80° or above, to prevent chinchbug damage. Repeat treatment at two-month intervals.

DO use anytime activity or damage is noticed or suspected, to control any insect listed above.

DO apply at Scotts Spreader (Standard or Automatic Model) setting **7** when treating for chinchbugs, ants, ticks, crickets and grasshoppers. At this setting, contents will treat 2,500 sq ft of lawn area.

DO apply at Scotts Spreader (Standard or Automatic Model) setting **5** when treating for flea beetles, sod webworms, vegetable weevils, earwigs and cutworms. At this setting, contents will treat 5,000 sq ft of lawn area.

DO overlap spreader wheel tracks so no strips are missed.

DO water lawn thoroughly after application when treating for chinchbugs.

DO sprinkle lawn lightly after application when treating for all other controllable insects, to remove particles from grass blades.

DON'T spot treat damaged areas only—apply over entire lawn area to provide complete protection.

DON'T use when grass is wet and so tall it touches bottom of spreader (let lawn dry before making application).

DON'T mow for 24 hours after application.

DON'T allow children or pets on lawn area until grass has dried off (after watering in).

DON'T use any other control product (such as weed control) for one week after application.

### Free bulletin-service

As a service to Scotts lawn people, we are offering a free bulletin on lawn care. This bulletin, which contains the following information, is available to you.

Free copy available to lawn people who are interested in lawn care. To receive your free copy, please fill out the coupon below and mail it to us.

### Scotts No-Quibble Guarantee

If for any reason you are not satisfied with Scotts after using the product, you are entitled to get your money back. Simply send us evidence of purchase and we will mail you a refund check promptly.
