## Directions for use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

For use on lawns, trees and putting greens consisting of Kentucky bluegrass, annual bluegrass, bermudagrass, perennial ryegrass, fine leaved fescue, bermudagrass or mixtures where these grasses predominate.

**TO PREVENT DOLLAR SPOT ANTHRACNOSE AND RUST** apply to moist or dry foliage at the RECOMMENDED RATE when environmental conditions favor disease activity. Repeat the application at 2 week intervals throughout the expected disease period.

**TO CONTROL ACTIVE DOLLAR SPOT ANTHRACNOSE AND RUST** apply to moist or dry foliage at two week intervals. Use the DOUBLE RATE for light to moderate disease infestations and the HEAVY RATE for severe disease infestations. When the disease activity is under control, apply at the RECOMMENDED RATE at two week intervals.

**TO PREVENT BROWN PATCH** apply to moist or dry foliage at the DOUBLE RATE when environmental conditions favor disease activity. Repeat the application at 2 week intervals throughout the expected disease period.

**TO CONTROL ACTIVE BROWN PATCH** apply to moist or dry foliage at the HEAVY RATE every two weeks. When the disease activity is under control, apply at the DOUBLE RATE at two week intervals.

To avoid product pick-up lightly irrigate treated areas soon after application.

**Storage and disposal**  
Do not contaminate water, food or feed by storage or disposal.  
**STORAGE** Store in a clean, dry place. Re seal opened bags by folding top down and securing. Protect from water and extreme heat.

**PESTICIDE DISPOSAL** Pesticide or rinse water that cannot be used according to label instructions must be disposed of according to Federal, state, or local procedures.

**CONTAINER DISPOSAL** Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by state and local authorities.
