crabgrass preventer plus lawn fertilizer

Advantages of Turf Builder plus Halts (R)

LEFT COLUMN

Superior Quality

Turf Builder plus Halts(R) - no one else has a tougher crabgrass preventer.
And our smaller, more uniform granules cover your lawn completely to stop
crabgrass before it starts. All this means that Turf Builder plus Halts (R)
gives your lawn the best crabgrass prevention available.

Scotts new Trionized II(TM) formula provides a more efficient nitrogen.
This means Turf Builder plus Halts(R) now gives quicker, deeper greening
than ever before while feeding your lawn as it needs to be fed -- much better
than any other fertilizer.

Turf Builder plus Halts(R) won't burn your lawn. The nitrogen in the
Trionized II formula is buffered. This means Turf Builder plus Halts(R)
greens your lawn quickly without the danger of burning.

Turf Builder plus Halts(R) provides two full months of greening.
The nitrogen in Turf Builder plus Halts (R) is time-released to keep a
constant supply of this essential nutrient available to your lawn. This means
that your lawn will stay thick and green for two full months.

Each Turf Builder plus Halts(R) granule is a complete fertilizer and
crabgrass preventer. We bond Scotts unique controlled-release nitrogen with
other essential nutrients and crabgrass preventer so your lawn receives a safe
balanced feeding and the most effective crabgrass prevention available.

(ILLUS.)

Turf Builder plus Halts(R)
Every granule is a complete
fertilizer.

Provides safe, even greening
with superior crabgrass
prevention.

(ILLUS.)

Simple Mixture
Each granule is a
separate chemical.

May cause surge growth,
burning or uneven greening
and irregular crabgrass prevention.

LEFT COLUMN

Easy to Apply

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Application

- . Turf Builder plus Halts(R) can be applied when your lawn is either wet or dry.
- . Apply in early Spring before the 3rd or 4th mowing or before temperatures are regularly in the 80's. Rain, snow or freezing weather after application will not affect the performance of this product.

Spreader

Please do not use this product on areas where you plan to seed. This product can prevent seeds from germinating.

The Scotts PF spreaders provide excellent controlled application to protect these areas.

Application Rate	PF, STANDARD or AUTOMATIC
Crabgrass (only) (Treats 5,000 sq ft)	X
Barnyardgrass, foxtail and crabgrass. (Treats 3,000 sq ft)	X

RIGHT COLUMNImportantRaking.

You may rake your lawn lightly to remove grass clippings or debris. But please avoid breaking the soil surface in your lawn for 4 months after application. Heavy raking will disturb the crabgrass barrier and reduce the effectiveness of this product.

Spring Seeding. DO NOT SEED OR SOD FOR 4 MONTHS AFTER USING TURF BUILDER PLUS HALTS(R). The crabgrass barrier prevents grass seeds from sprouting.

Also, please do not apply to newly seeded or sodded areas until after the second mowing.

Actively growing crabgrass.

This product does not control actively growing crabgrass and other wild grasses.

Tips on Spreading with Scotts Drop Spreader

- . First apply 2 header strips.
- . Operate spreader the longest way of the lawn.
- . Overlap wheels to insure uniform feeding.
- . Shut off spreader when you have reached the header strips or stopped.
- . Mow lawn first if grass is tall enough to touch the bottom of spreader.
