U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:
 538-155

Date of Issuance:
 OCT 12 2006

NOTICE OF PESTICIDE:
 _ Registration
X Reregistration
 (under FIFRA, as amended)

Term of Issuance: **Unconditional**

Name of Pesticide Product:
Scotts Turf Builder Plus Halts

Name and Address of Registrant (include ZIP Code):

THE SCOTTS COMPANY
 14111 SCOTTSLAWN ROAD
 MARYSVILLE, OH 43041

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document(s), EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted". This action is taken under the authority of section 4 (g) (2) (c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.

Reregistration under this section does not eliminated the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

A stamped copy of your labeling is enclosed for your records.

LEFT COLUMN

(Optional back panel claims)

Halts plus Turf Builder® - a tough crabgrass preventer. And our small, uniform granules cover you lawn completely to stop crabgrass before it starts. All this means that Halts plus Turf Builder® gives your lawn the best crabgrass prevention available.

Scotts Trionized® II - formula provides more efficient nitrogen. This means Halts plus Turf Builder® now gives quick, deep greening while feeding your lawn as it needs to be fed.

Halts plus Turf Builder® won't burn your lawn. The nitrogen in the Trionized II formula is buffered. This means Halts plus Turf Builder® greens your lawn quickly without the danger of burning.

Halts plus Turf Builder® provides two full month of greening. The nitrogen in Halts plus Turf Builder® is time-released to help keep a supply of this essential nutrient available to your lawn. This means that your lawn will stay thick and green for two full months.

Each Halts plus Turf Builder® granule contains NPK and crabgrass. We bond Scotts unique controlled-release nitrogen (N) with phosphorous (P) and potassium (K) and crabgrass preventer so your lawn receives a safe even feeding and effective crabgrass prevention.

(ILLUS.)

Scotts
Halts plus Turf Builder®
EVERY GRANULE CONTAINS NPK
and Crabgrass Preventer

Provides safe, even greening
with uniform crabgrass
prevention.

Now it's easy for you to have a better lawn

Save money

Why even consider a lawn care service? Scotts Annual Program will give you a beautiful lawn for less money.

Or

Why even consider a lawn care service? Scotts Lawn Pro Annual Program will give you a beautiful lawn for about one-third the cost.

Simple and easy

No more guesswork. You simply apply the right product - one Step at a time.

Start anytime

You can start into the Annual Program anytime of the year. Just check the month and select the appropriate Step listed below.

Guaranteed results

Each Step is designed to the specific season to help give you a healthier, greener lawn.

6/12

Step 1. Early Spring February-April	Step 2. Late Spring April-June	Step 3. Summer June-August	Step 4. Fall August-November
Crabgrass Preventer plus Fertilizer - prevents crabgrass, foxtail, spurge, oxalis, chickweed and other annual weeds while providing deep, thick greening for up to 2 months. This is Scotts best fertilizer plus crabgrass preventer. In the Pacific Northwest, Step™ 1 is "Moss Control plus Fertilizer".	Weed Control Plus Fertilizer - controls dandelions, clover, chickweed and other broadleaf weeds while greening your lawn for up to 2 more months. This is Scotts best weed and feed.	Insect Control plus Fertilizer - controls white grubs, chinch bugs, sod webworms and other lawn insects plus keeps your lawn green through the Summer.	Lawn Fertilizer - specially formulated for the Fall - the best time to develop a stronger root system for a more vigorous, thicker lawn. Helps your lawn green up even quicker next Spring. This is Scotts best fall fertilizer.

Super Winterizer

Additional Super Winterizer Feeding

September – November

4 to 6 weeks after Early Fall fertilizer feeding. Apply as last feeding in fall to help prepare your lawn for winter.

LEFT COLUMN

Directions for use

It is a violation of Federal law to use this product in manner inconsistent with its labeling

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Application

- Apply in early Spring before the 3rd or 4th mowing or before temperatures are regularly in the 80's.
- Halts plus Turf Builder® can be applied when your lawn is either wet or dry.
- DO NOT SEED OR SOD FOR 4 MONTHS AFTER USING TURF BUIDLER PLUS HATLS®. The crabgrass barrier prevents grass seeds from sprouting.
- Do not apply this product in a way that will contact people or pets.

IMPORTANT: THIS PRODUCT WILL NOT WORK UNLESS IT IS WATERED RUN FOR 10-15 MINUTES. FOR SAFETY REASONS, WATER THIS PRODUCT IN AS SOON AS POSSIBLE FOLLOWING APPLICATION FOR 10-15 MINUTESAND, DO NOT ALLOW CHILDRN OR PETS ON TREATED AREAS UNTIL DRY FOLLOWING THE WATERING.

7/2

SPREADER

- This product may only be applied by a push-type spreader. Hand-held rotary broadcast spreaders are prohibited.
- Please do not use this product on areas where you plan to seed. This product can prevent seeds from germinating.
- The Scotts spreader provides excellent controlled application to protect these areas.

Spreader Settings

Application Rate	Treats (sq ft)	Scotts Drop Spreaders	Scotts EasyGreen® Rotary	Scotts ReadyGreen® Rotary
Prevent crabgrass	5,000	XX	XX	XX
Prevent barnyardgrass, foxtail and crabgrass	3,000	XX	XX	XX

IMPORTANT

Raking

You may rake your lawn lightly to remove grass clippings or debris. But please avoid breaking the soil surface in your lawn for 4 months after application. Heavy raking will disturb the crabgrass barrier and reduce the effectiveness of this product.

Also, please do not apply to newly seeded or sodded areas until after the second mowing.

Actively growing crabgrass

This product does not control actively growing crabgrass and other wild grasses.

(OPTIONAL SPREADER INFORMATION)

TIPS ON SPREADING WITH SCOTTS SPREADERS

Scotts Drop:

- First apply 2 header strips
- Operate spreader the longest way of the lawn
- Overlap wheels to insure uniform feeding
- Shut off spreader when you have reached the header strips or stopped
- Mow lawn first if grass is tall enough to touch the bottom of spreader

EasyGreen™ Rotary:

- Slide shut-off lever to the right. Application automatically starts and stops when you do
- For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs

SpeedyGreen™ Rotary:

- Shut-off spreader anytime you stop.
- For complete coverage make each pass about 5 feet from the previous one so some overlapping occurs.
- Avoid applying product in flower beds adjacent to lawns

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.regulatory-info-sc-com>

Hazards to Humans and Domestic Animals: CAUTION. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wear long-sleeved shirt and long pants, shoes and socks, and chemical resistant gloves (such as or made out of any water-proof material. Selection category A). Remove and wash contaminated clothing before reuse. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling poison control center or doctor, or going for treatment. For emergency information call 1-800-225-2883.

Note to physician: Bensulide is a cholinesterase inhibitor. If signs and symptoms of cholinesterase inhibition develop, atropine sulfate is antidotal; 2-PAM (PROTOPAM) may also be given in conjunction with atropine but should not be used alone.

Environmental Hazards: This product is toxic to fish. This product may impair reproduction in birds if used during the breeding season. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target areas. Drift or runoff may adversely affect non-target plants.

STORAGE: Store in a clean, dry place. Reseal bag by folding top down and securing.

DISPOSAL: If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
