OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

SUBJECT: Label Amendment Submission of 01/31/94 in Response to PR Notice 93-7
EPA Reg. No. 538-161
PROTURF FUNGICIDE 7

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 once the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

As required by section 6(f)(1) of FIFRA, (Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements), the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. and The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

Directions for use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

For use on turfgrass areas consisting of Kentucky bluegrass, annual bluegrass, bentgrass, perennial ryegrass, fine fescue, bermudagrass or mixtures where these grasses predominate.

TO PREVENT DOLLAR SPOT, ANTHRACNOSE AND RUST -- apply to moist or dry foliage at the RECOMMENDED RATE when environmental conditions favor disease activity. Repeat the application at two week intervals throughout the expected disease period.

TO CONTROL ACTIVE DOLLAR SPOT, ANTHRACNOSE AND RUST -- apply to moist or dry foliage at two week intervals. Use the DOUBLE RATE for light to moderate infestations and the HEAVY RATE for severe disease infestations. When the disease activity is under control, apply at the RECOMMENDED RATE at two week intervals.

TO PREVENT BROWN PATCH, apply to moist or dry foliage at the DOUBLE RATE when environmental conditions favor disease activity. Repeat the application at two week intervals throughout the expected disease period.

TO CONTROL ACTIVE BROWN PATCH, apply to moist or dry foliage at the HEAVY RATE every two weeks. When disease activity is under control, apply at the DOUBLE RATE at two week intervals.

To avoid product pickup, lightly irrigate treated areas soon after application.

Storage and disposal

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing. Protect from water and extreme heat.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
