Now it's easy for you to have a better lawn

Save money

Start anytime

Why even consider a lawn care service? Scotts Annual Program will give you a beautiful lawn for less money.

You can start into the Annual Program anytime of the year. Just check the month and select the appropriate Step listed below.

Simple and easy

Guaranteed results

No more guesswork. You simply apply the right product - one Step at a time.

Each Step is designed to the specific season to help give you a healthier, greener lawn.

(ILLUS.)

(The 4 Steps listed below will be placed horizontally in one row.)

step 1. Early Spring February-April

Crabgrass Preventer plus Fertilizer - prevents crabgrass, foxtail, spurge, oxalis, chickweed and other annual weeds while providing deep, thick greening for 2 months.

step 2. Late Spring April-June

Weed Control plus Fertilizer - controls dandelions, clover, chickweed and other broadleaf weeds while greening your lawn for 2 more months.

step 3. Summer June-August

Insect Control plus Fertilizer - controls white grubs, chinch bugs, sod webworms and other lawn insects plus keeps your lawn green through the Summer.

step 4. Fall August-November

Lawn Fertilizer - specially formulated for the Fall - the best time to develop a stronger root system for a healthier, thicker lawn. Helps your lawn green up even quicker next Spring.

step2 DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

LEFT COLUMN

Application

- . Apply when weeds are actively growing, but not before yellow dandelion blooms have appeared.
- . Apply to moist or dry foliage, however, for best results, apply to moist foliage.
- . Be careful when applying this product near shrubs, flower beds or vegetable gardens as weed control may damage these desirable plants.
- . Do not over apply, especially under the drip zone of desirable shrubs and trees as some of the control ingredients are root absorbed.
- . Don't use on Dichondra, St Augustine, creeping bentgrass lawns or on newly seeded and sodded lawns until after the fourth mowing. Don't plant grass for one month after using this product and don't apply when daytime temperatures are consistently 90 degrees or above.
- . Allow at least 4-6 weeks between program applications.

Watering or Rain

- . Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product.  
This product should not be applied if rain is expected within the next 24 hours.

RIGHT COLUMN

Tips on Spreading

Scotts Drop:

- . Do not apply during windy days.
- . First apply 2 header strips. (ILLUS.) (ILLUS.)
- . Overlap spreader application area to avoid strips of untreated lawn.
- . Shut off spreader when you reach the header strip or any time you stop.

BACK CONTINUED:

EasyGreen™ Rotary:

- Slide shut-off lever to the right, application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs
