Now it's easy for you to have a better lawn

Save money

Why even consider a lawn care serv-
ice? Scotts Annual Program will give
you a beautiful lawn for about half
the cost.

Start anytime

You can start the Annual Program
anytime of the year. Just check the
month and select the appropriate Step
listed below.

Simple and easy

No more guesswork. You simply apply
the right product one Step at a
time.

Guaranteed results

Each Step is designed for the specific
season to help give you a healthier,
greener lawn.

(ILLUS.)

(The 4 Steps listed below will be placed horizontally in one row.)

step™ 1. Early Spring February-April

Crabgrass Preventer plus Fertilizer - prevents crabgrass, foxtail, spurge,
oxalis, chickweed and other annual weeds while providing deep, thick greening
for up to 2 months. This is Scotts best fertilizer plus crabgrass preventer.
In the Pacific Northwest, Step™ 1 is "Moss Control plus Fertilizer".

step™ 2. Late Spring April-June

Weed Control plus Fertilizer - controls dandelions, clover, chickweed
and other broadleaf weeds while greening your lawn for up to 2 more months.
This is Scotts best weed and feed.

step™ 3. Summer June-August

Insect Control plus Fertilizer - controls white grubs, chinch bugs, sod
webworms and other lawn insects plus keeps your lawn green through the Summer.

step™ 4. Fall August-November

Lawn Fertilizer - specially formulated for the Fall - the best time to develop
a stronger root system for a healthier, thicker lawn. Helps your lawn green
up even quicker next Spring. This is Scotts best fall fertilizer.

stepTM 2 DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

LEFT COLUMN

Application

- . Apply when weeds are actively growing, but not before yellow dandelion blooms have appeared.
- . Apply to moist or dry foliage, however, for best results, apply to moist foliage.
- . Be careful when applying this product near shrubs, flower beds or vegetable gardens as weed control may damage these desirable plants.
- . Do not over apply, especially under the drip zone of desirable shrubs and trees as some of the control ingredients are root absorbed.
- . Don't use on Dichondra, St Augustine, creeping bentgrass, bahia, or centipedegrass lawns or on newly seeded and sodded lawns until after the fourth mowing. Don't plant grass for one month after using this product and don't apply when daytime temperatures are consistently 90 degrees or above.
- . Allow at least 4 6 weeks between program applications.

Watering or Rain

- . Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product.
This product should not be applied if rain is expected within the next 24 hours.

RIGHT COLUMN

(The following instructions to be used on 5,000 sq ft Bag only).

Tips on Spreading

Scotts Drop:

- . Do not apply during windy days.
- . First apply 2 header strips.
- . Overlap spreader application area to avoid strips of untreated lawn.
- . Shut off spreader when you reach the header strip or any time you stop.

(ILLUS.)

BACK CONTINUED:

EasyGreen™ Rotary:

- Slide shut-off lever to the right, application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs

Speedy Green™ Rotary:

- Shut off spreader anytime you stop
- Avoid misses by making each pass about 5 feet from the previous one so some overlapping occurs
